Golf and Golfers.

The Onwentsia Country club went up to Milwaukee Saturday and were defeated in a team match with the Milwaukee Country club by 15 up. The contest was the second of a home and home series, in which the visiting players had four holes lead when they started in Saturday's match. The contest was interesting throughout and many surprises resulted. D. R. Forgan, the veteran western champion, could do no better than break even with L. T. Boyd, the crack Milwaukee player. The hero of the Onwentsias was Walter Egan, who took G. H. Russell into camp 6 down while O. C. Fuller of Milwaukee beat J. D. Hubbard 5 up. John Hamline and J. K. Illsley finished all even. It was a noteworthy feature that the young players of Onwentsia were the only ones to finish up. Besides W. E. Egan defeating his opponent, A. Poole, Jr., and L. Thompson finished 1 and 3 up, respectively. As a result of Saturday's contest Milwaukee is 11 up on the home and home series. The total score was: Milwaukee, 25; Onwentsia 10. Glenview will play the Milwaukee club at Milwaukee next Saturday.

At the Exmoor Country club Saturday R. J. Street defeated C. W. Hillard in a close match by 1 up in the semi finals, and J. M. Cutter won from Harry Towner, Jr., by 6 up and 4 to play. Cutter and Street will play the finals next Saturday.

The women's tournament at the Exmoor club scheduled for Sept. 29, has been canceled. Next Saturday at 2 o'clock the club will hold a driving contest, to be followed by an approaching and putting contest at 3:30 o'clock.

MAKE POULTRY PAY.

In order to succeed in the poultry business as well as in anything else, it is necessary to start right. The first essential is poultry (chicks) itself. Unless there is successful incubation and successful brooding there can be no poultry. Chicks that die as soon as they kick out of the shell, or at the end of the second day, do so because they were not properly hatched. They were robbed of their vitality and their ability to live by incorrect methods in incubation. The

"OLD RELIABLE" INCUBATORS make no such mistakes. They are so constructed that a new beginner is bound to succeed—just fill and light the lamp; the machine does the rest. Controls heat, moisture and ventilation perfectly.
