

A Unique Lecture.

The ladies of the Presbyterian church are arranging for one of the most instructive and entertaining lectures Highland Park has ever had the privilege at home to enjoy. P. F. Matzinger of Chicago is a sketch lecturer of note. He illustrates his lectures with his own drawings. He is original and draws views and people as he has seen and sketched them from life and brings as much artistic merit as possible into the rapid work. In Germany, where he lectured in the beginning of this year (1898) persons familiar with art expressed surprise at the excellence as well as rapidity of the work, and especially the effect of transparency and vibration of the atmosphere of some sketches, an effect which artists take great pains to produce. In America it has frequently been said that this ranks with the best and most careful work done on the lecture platform. Besides excellency of drawing he is also a very eloquent and instructive speaker. Parents should bring their boys and girls, if for no other reason than to show them how artists build up their pictures. His subject will be Alaska. The lecture will be given next Tuesday evening at 8 o'clock in the Presbyterian church. Tickets can be procured at the drug stores on Monday and Tuesday. You will be sorry if you miss this entertainment.

Mr. Deane, an employe of the Kellogg Switch Board Company, had a very serious accident happen to him last Thursday. He had been playing ball with a number of the boys and had retired to rest for a while. He was talking to one of the onlookers with his back turned to the players, when one of the boys threw the ball to him. He was warned of his danger but turned too late and received the ball full force, in the eye. The accident may be the cause of the total loss of sight in his right eye.

Mrs. Gebhart, who while visiting friends here had the misfortune to sprain an ankle, has so far recovered from the injury as to be able to return to her home in Morris Ill. Mrs. George Huber accompanied her.
