The dance at the hall Wednesday evening carried one back some forty years when husking bees, harvest parties and apple parings were in vogue. The hall was beautifully decorated with oats, wheat and corn. The costumes being in keeping with the time. The cotillion, the favorite dance, gave some of the gentleman a chance to cut the pigeon wing. We have two or three who can do this to perfection.

There was a rumor around the village Wednesday afternoon that somebody had sent the Police Magistrate a tremendous Thanksgiving turkey, but when the excitement had simmered down it was found that instead of a turkey an assistant police magistrate had arrived at the Hazel avenue mansion, and that the event had produced a dangerous disturbance of the official equilibrium. Indeed, it is given out that it is a case of "expansion" and "imperialism" in their most violent form, and that it will probably be necessary to enlarge the village limits by annexing a few outlying islands in the Skokie, or to extend the jurisdiction of the P. M. so as to take in all Cook county if not the entire state.

It is understood now that the final touches to the Green Bay road can not be put on this winter. A good hard surface, it is said, cannot be

made on macadam this late in the season. The road will not dry properly. The village engineer is not satisfied with the work done by the heavy steam roller used by the contractor. He says it is too heavy and breaks the bond of the surface. He is of the opinion that the interests of the village require that the finishing work be done next season when the weather is suitable for the purpose. We are provided with a solid road for the winter, and the finish can be put over without inconveniencing the public, though the contractor would prefer to be allowed to finish now.
