

The Fourth Ward.

All at once, last Saturday or thereabouts, the story was started over in the Fourth ward that Fred Greenslade, who is the Citizens' candidate for alderman, was a secret member of the Obee, Cobb, etc., set, and, if elected, would vote with them, and the city would be in the same fix as now. Let us say, once and for all, it is a falsehood, every word of it, and started by the Obee set. They know that Ward Four is down solid and strong on "Bill" Obee. They have had enough of him and want no more of such statesmanship. In their desperation they have started this falsehood to get his opponents to put up another candidate, divide the reform forces and let Mr. Obee in again.

Now, if Mr. Obee had any fine sense as a gentleman and a man of honor, fair minded and true, he would say to his fellow citizens over there, "Gentlemen, I have been alderman five years—that is enough for any one man in succession. I will not be a candidate again now, so select a good man and elect him." But that is not his style. He seems bound to rule or ruin, and he will get there if he can. Hence all kinds of falsehoods, free use of beer, &c.—all will be used to defeat Mr. Greenslade, if possible.

We know what we are saying when we say Fred Greenslade is all right, and it is the duty of every man who wants good, fair city government, and does not want any more of the Obee kind, to vote for Fred Greenslade. Every word of talk about some one else at this late day is helping Mr. Obee and his set to hold their injurious grip on the city government. They are desperate, for they know that if Mr. Greenslade is elected their game of rotten politics is up. So if you want to elect Obee talk about another man; if you want to defeat him talk about and vote for Fred Greenslade.

Once more, if Mr. Greenslade is an Obee in disguise, why are they working so hard to defeat him? Why are they so anxious to get Mr. Conrad or Mr. McPherson or some other good man to run against Mr. Greenslade? Do those fellows want a

good, honest, able, independent man in there for alderman? Not much. If they did, Mr. Obee would not run at all. Now, don't be fooled, Fourth Warders, by these miserable falsehoods. If they wanted a good man elected they would vote for Greenslade; because they don't want a good man they oppose him. More next week.

Col. and Mrs. John W. Clampitt, who have spent the winter in Washington, D. C., settling up an estate, reached their home up on the old Port Clinton avenue, opposite Col. Turnley's, Saturday, glad to be once more in the Park after a season amid the gaities and political schemings of the national capital. By the way did you ever read the Colonel's book on old frontier life among the Rockies? It is the best of the kind in print. It is a charming book.

Miss Julia A. Moore of the north end of town, who has taught school in Chicago some six years, visited her old time friends in the Park the first of the week. Like her mother she is a born teacher and knows, what some school mams don't know—how to govern her school, and that means sense, gumption and grit.

North Shore Chapter, D. of A. R., held their regular Chapter Meeting Monday afternoon at Mrs. Lashers' home. The subject was "An Afternoon with Our Ancestors." Many interesting papers were read, some of them containing much interesting, unwritten history.

Some of the weather this week was suitable for "tapping" your sugar orchard. In most orchards the sugar does not run from the trees in bricks, though some people seem to have that notion.
