FRIDAY, SEPT. 28, 1900.

The Chicago University boys are to have a new gymnasium costing a quarter of a million dollars, close rival to our new high school.

The oldest bank president died in New York the other day. We sincerely hope the president of our oldest bank will maintain his good health. Please bear in mind, David, hopes are centered in your continued health and good judgment.

Bennington, Vermont, where our fifth grade teacher was educated, has a debating society. Here one of the questions with which it has wrestled. "Which is better, to marry a woman you don't love or to love a woman you can't marry," and the local paper there decides in the affirmative.

Waukegan compels every resident irrespective of nationality, politics, religion or previous conditions of servitude to be vaccinated against small pox. We suppose the quarantine will be so strict that strangers can't visit the town unless they wear a tag on the left arm bearing the word "vaccinated."

We noticed five prominent deaths last week in Evanston and they call it a very attractive residence city. Better move down there reader, if you want to die. We will say one thing in its favor, they do publish beautiful obituary notices of those who die there and to some people that is a great consolation.

There is a woman down here who is said to have refused the hand of the best young man in town; she wanted a man who would amount to something in the world. She finally married a poor briefless but very young barrister to the surprise of many of her friends. To say her husband is the governor elect of his state at the age of 47. Think twice girls, before you decide.

The pastor of the Presbyterian church at Evanston seems to be disturbed over the "chain of prayers" of the W. C. T. U. to prevent Mr. McKinley's election. But why not? President McKinley is the one man responsible for killing the anti-cannoteen law of Congress abolishing the canteen in the army and keeping the saloons out of Manila. Are Christian women to be blamed because they don't want such a man elected.

A wide awake fourth grader who has just gone up into Miss Bottom's room, went home the other evening and informed his parents he was thinking of going up to the High school and enter there with the rest of the boys, he "knew as much as they did anyway." But receiving slight parental encouragement he has not yet done it though Miss Bottom keeps her eyes open lest he slip out some day between lessons and steal over to the new big school house.

Evanston is certainly an enterprising town. It first had Uncle Sam's federal census; not satisfied with

that the Chicago Times Herald takes one; still it is not satisfied. It is now to have a third census taken by another set of experts, this time to find out how many people go to church and where, or rather people's religious preferences. After that is done we want them to have one more to find out how many Evanstonians know enough to shut a car door on leaving the train.

There are several more new books out on China, since our note two or three weeks ago. One is Archibald R. Colquhoun's "Russia Against India," a strong, interesting and instructive book by a rank Russo-phobic intensely anxious for Britain's continued commercial supremacy. The other is a record of his extended and painstaking travels in China by Joseph Walton a member of the English parliament. He went everywhere; saw every body of importance and tells the truth about it. It ought to be in our library.

About our new mammoth Sheridan road our Winnetka contemporary and namesake says: "Cyclists are recommended to try the new Sheridan Road between Glencoe and Highland Park. Turn west at Mr. Melville Stone's place and just before reaching the Lutheran cemetery turn diagonally to the East over a short stretch of freshly turpined road which leads to the new mammoth boulevard constructed by Highland Park; this connects with the original boulevard made several years ago and avoids all the bad ravines by means of bridges, while the smaller ones are made rideable by easy grades. It is a fine piece of public improvement and Highland Park can justly be proud of it."

Here is a Massachusetts boy who could enter high school without an examination: "What would you do, mother, if I should fall into the pond?" "I should fish you out, my son." "But mother, perhaps I would not bite!"

Waukegan is boasting of the growth of her schools. This year starts off 1,700 pupils in all her schools, public, private, and parochial. As Waukegan has rather more than double the population of the Park, we ought to have from 700 to 800 pupils to keep up the pace set by our neighbors. We have estimated something as follows: Public school, 400; high school, 100; Post Clinton, 50; Raynor and the Kinzie school, 100, which makes 650, and one parochial school on the westside, with the private schools, will make nearly 100 more, or a total of 750. Guess we will keep up with the procession.

Highland Park Woman's Club.
The first meeting of the Highland Park Woman's Club for the season of 1900 and 1901, was held in the library hall Tuesday afternoon. The room was very tastefully decorated in autumnal flowers and leaves with a pretty homelike effect. The meeting was called to order by the president and the program was opened by a piano solo by Miss Humphreys. After the reading of the minutes of the last meeting Mrs. Warren rendered a vocal solo. Mrs. George Cummings and the President, Mrs. Fessenden, were elected as delegates to represent the club at the state convention at Rockford. Mrs. Fessenden and Mrs. Ed. Brown gave most charming reports of the Biennial Convention at Milwaukee, making those who heard them almost feel as though they had been there and quite wish that they had.

After more music tea was served by the house committee.

A team of six men from our Exmoor club went to Racine Saturday to play with the golfers of that city. The Badgers came out ahead, 2 up but our fellows report a good time all the same.
