TO MY FRIENDS AND PATRONS:

Looking after the interest of my patrons I would say that as coal will advance 10 cents per ton every month until September 1st, 1901, that those contemplating putting in their winter supply can do so now cheaper than at any other time during the season. The above advance for the different months has been decided by J. Pierpoint Morgan, who controls the railroads and mines, and from which wholesale dealers must deviate under penalty of getting their supply cut off at the mines.

In view of the above arrangement I would be pleased to receive your order for delivery this month, or at any future time, for the best coal in the market at the lowest possible price.

Respectfully,
A. ROBERTSON.
