

THE NORTH SHORE GAS CO.

Wishes to announce that on May 22d, and for a few days following, Mrs. J. D. Gibson, of Dayton, Ohio, will give a series of cooking demonstrations, showing the practical utility, economy and convenience of gas as a fuel. These demonstrations, to which the public is invited, are to be held in the Gas Company's New Office, just north of the Library Building, on Sheridan Road, and should prove especially interesting to those who contemplate using ranges this summer. A full line of gas Stoves are now on exhibition at the Gas office and will be sold absolutely at cost and on terms to suit the purchaser.
