

Cooking by Gas.

The price of gas for cooking purposes, in Highland Park is just the same as it is in Chicago, \$1.00 per thousand feet. It is cheaper and better than wood, coal or gasoline and should replace every ordinary stove in town. Gas ranges too, are cheaper than coal or gasoline ranges and are sold by us at absolutely cost prices and on terms to suit the customer.

North Shore Gas Company.

FORT SHERIDAN.

Wednesday was pay day at the Fort and the 1,100 or 1,200 men were paid off early in the day. When the NEWS-LETTER reporter were up there, just before sunset, there was no disturbance of any kind. You could hardly realize there were so many men at the Fort.

The foundations for the new addition to the guard house are nearly in. They are very substantial and no boy in blue or any other color will dig out through those walls. The addition is about 45x65 feet ground dimensions.

Secretary of War Root of Washington visited the Fort Saturday. He came out about noon on a special, spent an hour and a half and went back at 1.30. During that time he saw that the Sheridan road extension through the Reservation should be built and the general buildings of the Post greatly increased. Society people from Lake Forest were down in great numbers and it was a gala day for the officers.

About 400 men left for the Columbus barracks, Ohio, Tuesday. That is the first battalion of the 29th Infantry, including Companies A, B, C and D.

Cummings & Cox are putting quite a lot of improvements on the Fort cemetery. A fine macadamized drive all around the grounds is being built, and then neat crushed stone walks between all the lots. It will require about twenty-five carloads of stone for the job, which is supplied by John

O'Laughlin of Racine, who has also supplied scores of car-loads to the government in piles all alongside the Fort tracks for improving the Post drives.

For the benefit of those who wish to know we will say there is a dress parade every night at 6.30, except Saturdays and Sundays, same performance at 9 a. m. and inspection Saturday.

A resident assures us that it is as quiet and peaceful up about the Fort as in any country village of its size.

Gone.

Miss Evelyn Scott, who with her brother, has spent several delightful weeks at the Moraine left Thursday morning, in company with Mr. Norman, as far as Albany, Thursday morning, for the family summer home in Bar Harbor, Me. She came for three weeks and remained seven, such are the attractions of the Park and the Moraine.

Miss Scott is one of that fortunate, but too limited, class of persons who shed sunshine and gladness all about them wherever they go. Hence, she is conscientiously missed up at the Moraine and in the large circle of her devoted friends in this city and Lake Forest. She has entered into the social life of the city and north shore with her old time enthusiasm so that her departure this year is more keenly felt than ever before, and carries memories of a charming season to her seaside home "Down East."

Read the NEWS-LETTER.

Bon Voyage.

E. Norman Scott, who has spent several summers in the Park and been a most efficient member and official member of the Exmoor Club in promoting the interests of golf, left us Thursday morning for New York, whence he expects to sail for Europe Saturday in the Canard liner, Lucania. He expects to dine with his father and his cousin, L. G. Yoe, Saturday, before sailing.

He will make quite an extended trip in England, perhaps Scotland and then go over to the continent and meet his sister, Miss Grace, who is in Paris. He expects to be back in the Park about September 17th after a delightful vacation trip. His many friends here in the Park as well as elsewhere will wish him a bon voyage. He has spent the summer at the Moraine but expects to return to his old quarters on his return.

The Young Man.

This has been aptly and felicitously styled the "Age of the Young Man." The story is old that the churches as a rule want young preachers and pastors, veal in the pulpit, as the late A. K. H. Boyd styled it, with ministers the "dead line" is passed at fifty years of age, so said. When a minister is shelved at fifty it is largely his own fault, because he has fallen behind.

We once asked a minister about that age, his opinion of certain theological books, and he said he had not examined them, he had given up buying books; that is, he was not keeping abreast of the theological thought of the age, and

so was not keeping in touch with the men of his time.

His great argument was that his people did not read those books and he could save his money and his time. Perhaps they did read them, but they caught the spirit of them, it was in the air and they sniffed it every day and it was his business to keep abreast of it so as to be competent to guide them. He fell behind, of course, as he deserved to do.

But the young man is at the front, and chiefly because he is a hustler and gets a move on things right early. He has muscle of body and brawn of brain and a pretty good sound judgment for his years. This commercial age develops to very marked degree, precocity of judgment and business sense. It is in the air. Then the young man's vision is toward the future, he has ideals, not memories of days and wages forever gone. He is bold, daring, sometimes rash, but he will take chances, and the age likes and applauds if successful. We welcome the young man, but don't want him to crowd us too hard. Old men have their place in the world even; if the young men are at the fore. If no more, these venerable sires are valued connecting links between the past and present. Long may they continue.

A WORTHY SUCCESSOR.

"Something New Under the Sun."

All doctors have tried to cure Catarrh by the use of powders, acid, gases and inhalers and drugs in paste form. The powders dry up the mucous membranes, causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have

aimed to cure, while paste and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh has at last perfected a treatment which, when faithfully used, not only relieves at once, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This remedy is known as "Snuffles, the Guaranteed Catarrh Cure," and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve Hay Fever or cold in the head.

Catarrh, when neglected, often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write for full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles," the Guaranteed Catarrh Cure.

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Department 1, Edwin B. Giles & Co., 2330 and 2332 Market St., Philadelphia.
