Mr. and Mrs. A. O. Mason gave a party in honor of the birthday of their daughter, Miss Marion, last Saturday evening. About forty guests were present, each one wear- ing something to represent a book. Much amusement was afforded the young people in guessing these. This was followed by a literary con- test in which there were the names of writers and books. Two beauti- ful prizes were given those who proved to be the lucky ones in guessing. During the evening re- freshments were served and dancing was indulged in.

**RALLY WEEK.**

**At the Presbyterian Church.**

Next Sabbath will be Rally Sab- bath at the Presbyterian church. The pastor will preach a sermon ap- propriate for the occasion. Every member of the church and congrega- tion is expected to make a special effort to be present. Not a family should be unrepresented.

After the morning service at noon the Sabbath school holds its Rally. A special program will be given, one of the features being the reception of new members of the cradle roll of the primary department. Mr. C. E. Schaufler, the newly elected super- intendent, is taking hold with his customary vim. An orchestra will lead the music.

At three o'clock the Junior En- deavor holds their rally meeting, and at seven o'clock the Christian En- deavor Society will hold a spec- ial meeting when the Rev. Mr. Gibb of Chicago, will speak.

On Wednesday of next week the rally of the midweek meeting will be held. Taking it all in all, the week promises to be a red-letter time for the church. The public is cordial- ly invited to come to rally with the people.

The Ladies' Missionary Union will hold their meeting at 3 p. m. Wednesday.

Next Sabbath afternoon Rev. Pfafstiehl delivers an address at the Presbyterian church of Waukegan, at a christian workers' convention.

**CITY LIGHTING.**

To the Honorable Mayor and Alder- man of the City of Highland Park.

Gentlemen:—

Your committee to whom was re- ferred the matter of street lighting beg leave to submit the following report:

We find there are sixty-three arc lights used in lighting the city at the present time, ten of these are fur- nished by the Chicago & Milwaukee Electric Road under their franchise; two of them are furnished by the Highland Park Electric Light Co., and fifty one are paid for at the rate of sixty dollars a year, making a to- tal of three thousand, sixty dollars (\$3060.00.) The nineteen oil lamps cost the city last year for oil, repairs and lighting one hundred forty-six dollars and sixty-one cents (\$146.61), making a total of three thousand two hundred and six dollars and sixty-one cents (\$3,206.61) expended each year for street lighting.

There are eighteen arc lights lo- cated west of the railroad. As this number of lights is not sufficient to properly light this district, your committee would recommend doing away with the arc lights and using seventy-two gas lamps instead. This change we believe would enable the city to properly light all the streets west of the railroad from the north limits as far south as Lincoln avenue.

We would recommend placing a gas lamp at the corner of St. Johns avenue and High street; one at Lin- den and Vine avenues; one at Lin- coln and Forest avenues; one at Forest avenue bridge; one at St. Johns and Park avenues; one at Boulton's bridge on Linden avenue, between Hazel and Prospect, and one on Prospect avenue, between Linden avenue and the intersection of Laurel and Prospect avenues.

The eight gas lamps on the east side of the track will cost the city one hundred and thirty-two dollars (\$132.00) a year. These seventy two gas lamps west of the tracks will cost the city one hundred and eight dollars (\$108.00) more than they are now paying for the eighteen arc lights. The gas lamps will take the place of seven of the oil lamps now in use, a saving of fifty-two dollars (\$52.00) a year, making an expenditure of only one hundred eighty-eight dol- lars (\$188.00) per year more than it is at present.

In reference to the two arc lights, the lighting of city hall, and one in- candescent light in the subway under the Chicago and Northwestern tracks on Laurel avenue. These are now furnished by the Highland Park Electric Light Co. in consideration of an eight-cent water rate. We would recommend that the city pay for these two arc lamps, the light used in the city building and the incandescent light in subway, and that the Highland Park Electric Light Co. be required to pay the regular rates for the water they use. We think this will be more satisfac- tory to both the city and the Elec-

tric Light Co. and by so doing the city can still continue to pay for these lights out of the water fund.

Your committee would recommend that the trees in all the parkways be trimmed to a sufficient height to al- low the light to shine through on the sidewalk.

Your committee would recom- mend that the proposition of The North Shore Gas Company for gas lamps be accepted, and that they be required to furnish eighty gas lamps, seventy-two on the west side of the track and eight on the east side.

The following proposition was submitted by the North Shore Gas Company:

Mr. Edward Warren, Chairman on Street Lighting. Dear Sir: We beg to submit the following proposition for lighting the streets of Highland Park as per map furnished by you. Covering not less than 70 lights, with the privilege of increasing the number in locations approved by your Com- mittee and the Gas Co., at the same rate.

We will furnish iron posts of standard size, properly painted, and fitted with boulevard lanterns and mantle burners of latest design for street lighting.

We propose to keep these posts lighted from dusk to 1:30 p. m. every night except moonlight nights; to light, extinguish, clean and keep in good repair (supplying all break- ages) provided, the council passes an ordinance imposing a fine for malicious damage to the lights or for hitching horses to the posts.

We reserve the right in certain outlying districts, to supply a por- tion of these lights with mantle gaso- line lamps of equal candle power, until such time as we are warranted in making the necessary extensions of gas mains in these districts.

We propose however to cover a portion of this territory at once, so that nearly all the lights will be supplied with gas.

The price per year for a five year contract to be \$16.50—payable monthly in equal installments.

We agree to have these lights ready to use 30 days after signing the contract.

Yours very truly,  
NORTH SHORE GAS CO.,  
Per L. PRICE, Supt.

We have received from the Groom Music Company, Steinway Hall, Chicago, several professional copies of their late music. This company is putting out some good pieces, both vocal and instrumental, and will gladly examine authors' manuscripts with a view to their publication. It sets some words poems to music on a basis that pays a good profit to the author.

John Mohr, the west side barber, seems to be doing a rushing business these days. The baths are proving a splendid accessory to his finely equipped shop and he has added another barber chair to accommodate the big increase of trade.
