Brain-Food Nonsense.

Another ridiculous food tad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at G. B. Cummings'. FRIDAY, FEBRUARY 28, 1902.

County Clerk Hendee wrote Judge Hibbard this week to learn how many fines he had collected last year for Lake county, and he wrote back "None"; that here we brought all public suits in the name of the city, so Highland Park would get the fines. He also informed Mr. Hendee that this was a republican era, and the people here believed in the good old republican doctrine of protection and prosperity for home industries, and so we keep all our business and money at home and let the county take care of itself.

A fist-fight in the senate of the United States of America in this year of grace 1902, the twentieth century. All honor to President Roosevelt for withdrawing his invitation, previously sent, to Tillman to the dinner to be given to Prince Henry. The prince is a gentleman and the president could not have any better recognized gentlemen at his table. Our southern friends were greatly disturbed a while since because President Roosevelt invited Booker Washington to his dinner table, because he was a gentleman. Will they now thank him for refusing a seat there to one of their senators? The president knows where to draw the line—it is not a color line, but the line of real manliness, culture and manhood.

The condition of some of our cement sidewalks is enough to make anyone hungry. That on Prospect from the Boulton corner to the depot. The walk is from two to twelve inches below the level of the land on both sides, and so all the thawing days is flooded with water. There are several places where the water is over rubbers at midday, and most of the way over boot soles, even if quite thick and heavy. In places, like by the Babcock place, where the walks are up as they should be, they are as dry and clean as in June. We call attention to the matter so our present city council will not allow any more such abuse of the public. Mr. Boulton did his best to keep the walks in front of his lots up, but the engineer would not listen, and now see how they are in all wet weather.

If there ever was a farce or humbug in real life, it was the election last Tuesday for a new circuit judge in this Seventeenth judicial district. The election could have been delayed till the regular spring election and cost but little if any extra expense. Here were six persons, for judges and clerks, at \$5 a day each, and after all their Herculean efforts to

drum up votes, only 21 persons voted. Official fees were \$30, besides the expenses for ballots, tally-sheets, books, posting notices, etc., in all making for Lake county a bill of from \$1,500 to \$2,000. And all this because we have such an ignorant or unscrupulous set of law-makers in Springfield. It is time to turn the rascals out and have some honest, capable men elected. We shall vote for such a man next time, if we have to vote for ourselves.

WISDOM OF THE EAST.

Mr. Fred P. Luther, who went to New York nearly three weeks ago, had some queer experiences. For instance, when he spoke of Washington's birthday, they appeared to be dazed at first. Yes, they thought they had heard of such a man. Was he related to Columbus, or was he one of the early settlers who located on the Massachusetts Bay? But they did not know anything of his birthday.

And when he spoke of Bunker Hill, they seemed perplexed and wanted to know if that was the battle where General McClellan commanded. Most of them know as little about Lincoln, and supposed he was one of Buffalo Bill's troupe.

No wonder he came back to his home here in the Park more satisfied than ever with the place and went out Tuesday looking up lots on the Sheridan Road and elsewhere. He wants to live where the initials "G. W." and "A. L." stand for something. And when he told them Washington could not lie about the apple tree incident, one fellow blurted out, "Well, he didn't live in Chicago," and Mr. Luther had to own that he did not.

A DELIBERATE PEOPLE.

"You villagers seem to be a rather deliberate lot of people." "I s'pose we be. There wuz a feller drowned in the crick a spell go. He yelled 'Help, Help!' afore he went down th' last time, an' th' editor of th' village paper heard him an' went back to the office an' put in his paper, two 'help wanted' ads an' charged them up to th' state."—Northwestern Agriculturist.
