  - Josiah Strong..... F 479

I live and let my brethren live  
With all that's good with me.  
Unto the poor, some cash I give,  
To the balance I give Rocky Mountain Tea.  
Geo. B. Cummings. cg-1

People often remark that the newspapers do not publish all the things that happen. We should say they didn't. In the first place the editors have others who depend upon them for a living. If we published all that happened we would soon be with the angels. In order to please the people we must only print nice things about them. It's a fact, we don't print all the news; if we did, wouldn't it make spicy reading matter? But this would be for one week only. The next week you would read our obituary and there would be a strange face in heaven.

Three ships at New York are now used as sea hotels. Each evening they put out to sea and are back at the wharf at 6:30 a. m. The charge is \$1, with an additional 50 cents for a table d'hote breakfast. Bunks line

the upper deck, which is protected by a watertight awning. During the day the bunks are converted into seats. On the main deck there is a handsome apartment for women and a smoking room for men. A tug tows the ships to sea and back. State-rooms with bathing facilities are provided for those who want them. This novel fleet has been organized by Mr. John Arbuckle, who will devote the profits to charity. The Saturday evening boats remain at sea until Monday morning. In case a passenger is disorderly he is taken to the tug and confined.

WANTED.

We would like to ask through the columns of your paper if there is any person who has used Dr Green's August Flower for the cure of Indigestion, Dyspepsia and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual costiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver. This medicine has been sold for many years in all civilized countries and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try one bottle first. We have never known of its failing. If so, something more serious is the matter with you. Ask your oldest druggist. cg-24  
G. G. GREEN, Woodbury, N. J.

HEAT STOPS WATCHES.

A Dealer Reports That High Temperature Brings Epidemic of Broken Mainsprings.

"This weather is hot enough to stop a clock," growled the fat man, as he got in range with the electric fan, says the Philadelphia Record. "It is, and it does," replied the jewelry store salesman, who was his vis-a-vis at lunch. "It stops watches, too."

"I haven't worn my watch for a week, so you can't prove it by me," said the fat man. "When I discard my vest I discard my watch. It's lying in my bureau drawer, and it hasn't been going for a week."

"I don't mean that," said the jewelry store clerk. "I honestly mean that excessively hot weather such as this stops watches that are kept wound up and are supposed to be in good running order. During the last three days at least 50 people have brought their watches into our store because they have stopped. In nearly every instance it was found that the mainspring was broken. The head of our watch department told me this morning that it was always so when the temperature got up around the hundred mark and stayed there for several days. Only he said he had never known so many instances of it as at the present time."

Jack Tar Is Averse to Bathtubs.

The days of the old fore-castle, hung away in the dark hold under the forward mast, are gone forever, no matter what flag the vessel may carry. The fore-castle on new steel ships is in a deckhouse, well forward. On American ships it is ventilated like the skipper's cabin in the stern of the ship, has a skylight and apparatus for heating. The men used to eat with their plates on their knees; now they have a mess table with racks to hold the dishes in place in rough weather. Tanks on top of the house supply running water, and the reason modern fore-castles do not have bathtubs is that the sailors would rather take water over one another.

There is an opportunity in Cuba for the investment of capital, if persons investing will be content with moderate returns, says Senator O. H. Platt, in Success. I do not think our new possessions hold out any inducement for an American who proposes to support himself and to better his condition by his labor. The climate of the tropics is not favorable to the northern workingman, and the capitalist who expects to double his investment in a year or two, according to the present craze for obtaining immediate wealth, is very likely to be disappointed. Business methods, business sagacity, and contentment with reasonable returns, are likely to make ventures of capital fairly remunerative.

There is no end of odd names in North Carolina. One of the best-known men in Raleigh named his children after the states of the union, and they are among the most prominent people in that section to-day, among them being Rev. Wisconsin Royster and Vermont Connecticut Royster. Newburn is the home of Sharp Blunt. The home of Sink Quick is in Richmond county. Prof. Dred Peacock, of Greensboro, is one of the foremost educators in the state, while the home of Early Dawn is Raleigh.

Four nice rooms in a private residence (cottage), three blocks from depot, near the lake; gas, bath and other conveniences; in fine condition; must be seen to be appreciated. Rent \$25. 34.
