Several of our people attended the rendering of "Belshazzar" at the Methodist church in Chicago, which they pronounce very fine. Miss Wycoff was one of the artists and again met the high expectations of her friends.

As noted last week several young ladies matrimonially disinclined met on the west side and formed a "High Holy Purpose" club. They met again Wednesday evening, but we guess their purpose has weakened, as every last one of them had a young fellow at her elbow. Cupid is a cunning as well as artful little rogue.

The "Great" Northwestern railroad has repaired the dangerous Central avenue crossing, which is in such bad condition, with two, just two, 30 cent planks, and are now waiting for the generous citizens of the park to raise a few more pennies to buy plank for the balance and help pay their \$1 per day men for laying them.

The other directors are William Rectenwald and Henry K. Coale.

A great many have been wondering what on earth the News-LETTER wants with the new safe just put in the office. As a matter of information we can say it is not for depositing the cash, but for the large number of books necessary to carry the accounts and bad debts of Winnetka and Glencoe subscribers, as we want to show St Peter some day that Winnetka is the biggest "dead beat" town on earth.

Mr. F. G. Sutherland, better known as the "human fly," painted the high smoke stack of the electric light plant Thursday. He worked with lightning rapidity, accomplishing in the day, what would ordinarily take three days. As he climbed the dizzy heights of the great 126 feet stack, he was watched breathlessly by pedestrians and many school children were interested spectators.
