If you wish to know how to use a parkway ride down Hazel avenue and note how H. H. Doty has done it, by planting cannas, it is a little late 'tis true, for the parkway was finished in season, but the idea is there and so are the cannas. An immense improvement over thistles and weeds.

That wonderful new and up-to-date postoffice building, the Thomson estate was to build here this summer don't seem to materialize very fast. There is some question as to whether it is policy to pay \$1.25 per month each for the gas lights on Green street, when it seems impossible to have them lit even on the darkest nights. Possibly a boy could be bired to light them before dark, as the parties now intrusted with the work seem to have a fear of venturing on the street after night.

The new automobile ordinance will be again revised before final passage and publication. One improvement will be to require every person who operates a machine to have a license to the effect that he or she is competent to do so. Boys have been on the streets lately running machines and hereafter they will be arrested and fined. An auto is not a thing for a boy or girl to play with on the street.

It is understood a Highwood saloon keeper said some one interested in the Firemen's picnic asked him to send down some beer and he did so, but his man evidently thought to turn over thrifty a penny by peddling a few bottles when city marshal Nelson nabbed him and Friday morning they came and paid the usual fine in such case, \$10.00 and costs and were let off. It is not believed any fireman asked for a beer wagon, for they are not law breakers like that.
