## FIFTY YEARS

From a small beginning this firm  
has grown until our factories now  
cover many acres. Some of our  
machines sold fifty years ago  
are still giving faithful service.

## WHEELER & WILSON SEWING MACHINES

The Rotary Hook, a distinctive  
feature, originated with this ma-  
chine, operates in one continuous  
revolving motion. Compared to a  
shuttle it works on exactly the  
same principle as the circular  
buzz saw in contradistinction to  
the cross cut saw. The work that  
can be accomplished, the speed  
that can be made, and the ease  
and convenience of operation all  
are features that have combined  
to give this machine its present  
enviable prestige.
