

Mr. Business Man

C How about your "Message to Garcia"?

Are your printed announcements, which perform the part of special messengers, made of the same stuff as Lieutenant Rowan?

Do they deliver the message? It is not the amount of money you are spending that really matters. The question is: Are your dollars bringing results?

It is our business to take your message to whomsoever you direct. We create and print advertising material that produces results.

Before you place your order for printing why not have our representative call and see you?

A post-card will bring him.
