New Spring Arrivals March 3, and Lasting Seven Days

The styles for this spring in Suits, Skirts and Waists at this store are more beautiful by long odds than ever before. There is a reason for this, and that is, our buyer in New York was instructed to select only the best to be had when giving his order, and after a thorough inspection of the garments that have arrived, we must say that he certainly did his duty. These garments will be on display Monday, and while each garment has an individual style of its own, it will pay you to come and get first choice.

We sell everything in wearables for Women and Children except shoes.
