

Christmas is Coming

THE season for gift books is here. It is not necessary to get into the jam of great crowds in a big city in order to find the best things. We have them!

If you go to the greatest stores you will find that there are some things not in stock. Of course that is true of us but there is this difference: we take pleasure in getting anything for you at market or published prices, and in cases where a discount is possible we gladly give it.

We have now on hand the latest **COPY-RIGHT NOVELS**; the \$1.50 editions at \$1.25. Some of these may be gone before you call for them but we can get them for you in a few hours.

We have a splendid line of illustrated gift books for children and adults from ten cents to \$2.00.

There are larger stocks of Post Cards in some big stores, but nowhere is there a better selection than we carry.

Among the latest books published are the two remarkable volumes by the Rev. Wm. Burgess, of our own city: "The Bible in Shakspeare," 300 pages, \$1.50 net, and "The Religion of Ruskin," 450 pages, \$2.00 net.

These are net books and according to the rules of the trade cannot be sold at a discount. They are handsome volumes uniformly bound and boxed for mailing and constitute one of the newest and handsomest gifts in the book world. Call and see them.

As to the rest of our stock: Our Correspondence Fancy Stationery, etc., we invite you to call and see it.
