**You Don't Pay Any Royalties
When You Buy Clothing
Here**

We don't try to get you to pay \$10.00 extra because a certain name is sewed under the coat collar of a suit, when that name means no added satisfaction or better value. Good clothing is simply good clothing—and good clothing is the only kind we make. We only charge you what it is actually worth, with a modest and necessary profit added. We couldn't do otherwise.
