# EVER BEAT A CARPET?

Ever beat one until no more dust would come out? Ever see anyone who did? Ever have a carpet or rug beaten to "smithereens" trying to get it clean? Guess our experiences along this line are about all alike. That's one reason the "finicky" people of the North Shore have quit doing or having these things done at home. Another reason is that it is cheaper to have them taken away when one considers the saving of energy and wear and tear on the goods. It takes equipment to do the thing right, and the proper equipment will clean the largest, heaviest rug as thoroughly as the smallest, lightest carpet without injuring the fabric. Only two or three places on the North Shore where you can have it done. One of them is the Reliable Laundry at Highland Park. They are prepared to relieve you completely of the trouble of cleaning carpets, rugs, blankets, draperies, lace curtains, and all such things. All you need to do is to call up Highland Park 107 and the biggest job of the house cleaning period will be taken entirely away from your premises and returned as good as new.
