

NORTH SHORE NEWS-LETTER

Volume 21

HIGHLAND PARK, ILLINOIS, APRIL 11, 1908

Number 15

The portrait above of MR. FRANK L. CHENEY, candidate for Alderman in the Second Ward. Mr. Cheney lives in the North end of the Ward, and the "North Enders" feel that they are entitled to a representative in the Council.

The only objection offered to Mr. Cheney's candidacy is his comparatively short residence among us, having lived here only about two years, but if this is an objection (?) it is one that time will overcome as he is rapidly making friends and impresses all who met him with his geniality. Another serious objection which might be urged against him is the fact that he is an "old bach" but that can safely be left to the future and charming young ladies of our fair city.

Mr. Cheney is a lawyer and a man of affairs in Chicago, a specialty of his firm (McMahon & Cheney) being the care and management of large estates.

At home Mr. Cheney is a plain "farmer" and he is rapidly making it one of the show places of Sheridan Road. He is also a veteran of the late Spanish-American War, and served in Cuba. The names of about eighty prominent residents of the Ward are on his election petition.

A decision as to whether or not Ravinia Park will be opened for concerts this summer will be made known in a few days.

The Crescents Ball team have secured Ravinia Park continually for Saturday and Sunday games. This does not seem in harmony with the spirit of the community and in fact a violation of one of our ordinances which explicitly forbids all boxing, jumping, racing and other games of amusements on Sunday. An ordinance of this kind is generally taken to mean only games, sports etc to which admission is charged. (Section 194 Revised Ordinance Page 80)

as in the most up to date products were brought out by Mr. Nichols and given to the school. Very few Grammar Schools in the State have the fine facilities to give their pupils the benefit of such good illustrated talks. The bright and intelligent questions asked by the pupils of Mr. Nichols at the close of his lecture gave sufficient evidence that he had held the attention of the students to a remarkable degree.
