

"Some said, 'John print it!'  
Others said, 'No!'"

**JOHN BUNYAN**  
did print it, although  
he had no such printing  
plant as the North Shore  
News-Letter Print with  
its fine Miehle, Optimus  
and Gordon presses run  
by electric motors. ❁ ❁

If you want it print-  
ed we will tell you what  
it will cost. Call 'Phone  
92 and we will wait on  
you. ❁ ❁ ❁ ❁

**North Shore News-  
Letter Print**

Highland Park, Illinois

## One Month Only

We will make to your order absolutely

**FREE**  
**A Pair \$5 Trousers**

With every suit made to order at

**\$15**

Your choice of a large array of  
woolens

We do this to keep our Union tailors  
busy, and also to reduce our enor-  
mous stock of cloth. Take your  
choice of any piece of cloth on our  
racks for your suit and Extra  
Pants. This offer is positively  
good for only one month. Come  
first and take your pick of our  
choice lot of fabrics. A perfect fit  
guaranteed ❁ ❁ ❁ ❁

All Garments Made Right on  
the Premises

**THE UNION WOOLEN MILLS CO.**  
107 SOUTH GENESEE ST. WAUKEGAN, ILL.

**70 at 7**

Look!

You can have the temperature of  
the house kept at 70 through the  
day, reduce it to 50 or 60 degrees  
at night and then automatically  
brought up again to 70 degrees at  
7 o'clock in the morning, if you  
will install

### The Jewell Controller

with  
**Time Clock  
Attachment.**

This wonderful device  
accurately maintains  
a reduced tempera-  
ture during the night  
and by setting the  
Time Clock at a pre-  
determined morning  
hour it will, when that  
time comes, raise the  
temperature to any  
degree desired. No  
shivering or "catching  
cold" on chilly morn-  
ings when the Jewell  
Controller is looking  
after your comfort.

The "Jewell," unlike  
other controllers,  
never loses thermo-  
static control day or  
night.

The Time Clock At-  
tachment doubles the  
controller's useful-  
ness. It pays for itself  
in one or, at most, two  
seasons.

Equally efficient on  
Furnaces or Boilers.  
Shown and sold by

W. J. McNANLY

Miss Jewel as  
a Heat Control-  
er and Coal Sa-  
ver after instal-  
lation will prove  
a Jewel of the  
first degree as  
it will raise the  
Degrees and  
keep them at  
any desired  
point.
