When you hear the fire whistle, PLEASE DO NOT CALL CENTRAL and ask her the location of the fire.

It is required of the operator on an occasion of this kind that she notify the various Fire Officials and Men and hold herself in readiness to give additional information should Fire Department so request.

Quite frequently the Fire Department calls for additional help or a doctor and the completion of an important call of this kind, as well as regular routine calls, might be considerably delayed were operators unnecessarily busy in replying to the many requests of the public as to the location of fire.

SUGAR CASES NOT DROPPED.

Government Not to Abandon American Refining Company Prosecution.

Washington, June 30.—The government has no thought of abandoning the prosecution of the American Refining Company on account of any legal question raised by counsel for the company or for any other reason. This statement is not officially authorized, but it is known to represent the views of the government. The plea advanced by counsel for the company that the statute of limitation operates to bar prosecution contemplated by the government, may, it is said, delay action for a few days but no longer. It is understood that the department of justice officials are fully determined to push these prosecutions to an early determination, and that they are sanguine of ultimate success. The early departure of United States attorney Wise of New York for Paris, it is said, will have no possible bearing upon the action of the government in the sugar case.
