

GLENCOE NEWS

The ladies of the St. Elizabeth Episcopal church entertained as guests in Glencoe last Wednesday in the grove, 157 ladies and children from the St. Mary's Episcopal Mission, Chicago. A substantial lunch of good things to eat including eggs, milk, coffee, bread, cake and ice cream was furnished by the Glencoe families. The ladies principally interested in entertaining were, Doctor E. M. Culver, Mrs. F. J. Woolley, Mrs. J. C. Parry, Mrs. T. C. King and Mrs. Johnson.

Mr. Walter Cox, chairman of the Independence Day Celebration Finance Committee, is entitled to congratulations for the satisfactory manner in which he conducted the financial affairs, leaving no illfeeling or dissatisfaction with the many who had business to do with his committee.

Mrs. M. A. Farwell and children returned this week from Hudson, Ohio, having had a month's visit with relations.

These are gay days at the Skokie Country Club.

Most of the building material, except lumber, is being furnished to Glencoe Contractors by the North Shore Fuel and Supply Co. Mr. Parish, the local Glencoe agent, reports a busy month in the building material line.

The committee appointed by President Hughes to investigate taxes in Glencoe will probably not make a report to the Board of Review for some time. All complaints should have been presented before August 1st to receive attention this year.

Mr. J. Jeffrey, a resident of Glencoe, is the contractor, building for Wm. A. Fox on Longwood avenue.

Walter Damrosch and the New York Orchestra attracts great crowds to Ravinia Park to attend the open air concerts nightly.

Miss Laura Johnson left Glencoe on Wednesday for Portland, Maine to be gone two months.

Mrs. C. S. Bartholf and daughter, Miss Dorothy, returned to Glencoe this week from Massachusetts.

Mr. and Mrs. A. A. Murray are out of town on a trip to the Pacific Coast.

James Stevens, while out in his pony cart Tuesday morning coming through Hubbard's Woods, two dogs frightened his pony; the cart was upset, the boy was thrown out and was rendered unconscious for several hours.

Seventy-five years ago the first farm house built in Lake County was erected near Rockefeller, Illinois by Captain Daniel Wright in the year 1834. Arrangements are being made by the Lake County Historical Society to celebrate in a fitting manner the 75th anniversary of this important event August 24th. A large boulder has been selected to mark the site of the first house erected in Lake County.

The North Shore voters will have an opportunity of nominating a new Congressman next April—unless the law is again changed.

Mad Dog Shot in Streets of Glencoe
—At half-past five Wednesday morning last week Dr. Swain noticed a mad dog coming down the road near his place. He called up the town hall and got a police officer on the scene at once. The first shot he fired hit the mad dog in the front leg; the second shot hit the dog on the side and brought him down. The dog was a big black fellow and was frothing at the mouth.

A very inexpensive good day's outing is recommended to those who have not tried it. Take the electric cars north any fine morning in time to reach Lake Bluff and Rockefeller connections; transfer to the car going west to Rockefeller, leaving Lake Bluff 10 minutes after ten, and at 10:25 Mr. Cameron, at Rockefeller Station, will meet you and drive you around Lake Eara, Mr. Sheldon's new summer school camping grounds. This drive will take but a half hour. Dinner is ready at Hotel Cameron promptly at 12 o'clock and a good big country dinner you get for 50 cents. At one o'clock a double-seated two-horse surrey is waiting at the door—for one dollar each—for a company of not less than three persons, whether taking the surrey or bus—and he drives a good team of horses—south to Diamond Lake, then through a beautiful farming country inland to Lake Zurich. You will want to get out there, visit the cheese factory and take a good view of the lake while the horses are resting a bit. The drive is then around the shore of Lake Zurich north to Wauconda, an old inland town on Bang's Lake. This is another good place to rest—for you have gone fully 12 miles. The trip back to Rockefeller is hilly and beautiful; the farms are all prosperous-looking and roads are good. Arriving back to Mr. Cameron's house, a good supper is awaiting. You get all the milk you want to drink and the supper—well, it is indeed the best mother's cooking ever offered to man. If you make this trip in the middle of the week the cars are not crowded and you get back home rested in body and mind.

If you want to know what a collar is worth, try to borrow one.

It is not the easiest thing in the world to convince a boy that work is good exercise.

The average man would be content if he could catch a fish for each mosquito bite he receives.

Women may not be savages, as Professor Starr insists, but did you ever tell one of them that her baby didn't know anything?

Mrs. Belmont says that most women at the age of 18 hate men. Well, they marry them to reform their bad traits and gradually learn to like them.

"Another monster comet with a tremendous tail is said to be menacing the earth. Suppose it wouldn't do any good to muzzle its tail?"

A judge recently asked a child witness, "Where do the liars go?" The child thought it was a certain place, but others believe they go down to the assessor's office to return their personal taxes.

Quantities of broken glass was again discovered along the cement walks on Hawthorne avenue, between Greenleaf and Sheridan Road, and on Longwood avenue between Park and Hazel. Anyone caught scattering broken glass along the roads or sidewalks of Glencoe should be arrested and heavily fined for malicious mischief.

Excessive taxation on Glencoe real estate is a very common complaint heard in Glencoe. Echoes should reach the School Board, Library Board, Village Board and all other taxing bodies. Several new improvements are quietly offered on the market for sale, and it is understood excessive taxation is the cause.

The digging for sewer pipes on Sheridan Road in some places is twenty feet deep.

The "Progressive Republicans" favor a direct primary election law.

Thirty years ago cement and concrete had hardly been heard of as structural material. Ten years ago reinforced concrete was almost unknown.

There were more young women this year among the graduates of our universities, colleges, training schools and high schools than ever before. Each year the number, as compared with that of male students in the institutions of advanced education has grown larger and larger, until now it is said they constitute fully one-fourth. It is not at all unlikely that before many years have passed they will make up one-half, although such a possibility was little dreamed of a generation ago.

If you're afraid you will fail, you are half-way to the land of the Has Beens. Stop thinking you can't succeed and you've turned your back on failure.

If a man deceives me once, shame on him; if he deceives me twice, shame on me.

Cause and Effect.
Sapphedd—You saved me from being killed by that auto. I owe my life to you; how I ever repay you?
Stouten—Young man, don't you let trifling debts like that worry you!—Life

The Big League.
Quiverfull—That boy of mine will drive me crazy.
Knottawon—What's his latest?
Quiverfull—Wanted to know how many teams there were in the Epworth league.
—Milwaukee School Mercury.

Modern Disadvantage.
"Some of the greatest men in our history studied by the light of pine knots."
"Yes," answered the young man, "they could afford pine knots. They lived before there was any lumber trust."
—Washington Star.
