#### Motorman Injured.

Motorman Raymond Hand, in employ of the Chicago & Milwaukee Electric Railroad, met a serious accident Thursday. The cause was the explosion of a controller, and Mr. Hand got the full force of the flash in the face. He is badly burned and tried intensely Thursday night when he was taken to the Jane McAllister Hospital at Waukegan. Reports Friday morning are to the effect that he will in all probability lose the sight of one eye. It was an old style car which Hand was running at the time and it did not have the safety fuse plug connection. Mr. Hand is a very popular young man and has a host of friends who are all lamenting such an accident.

#### Unknown Man Struck by Train.

The first northbound Milwaukee Electric limited struck an unknown man at Vine avenue Friday morning. He had just been employed by Cape & Sons who are at work on the road at that crossing. The foreman put him to work without learning his name. He was standing too near the tracks and the train hit him smashing his skull. He was barely alive and unconscious and was taken to the hospital at Evanston.

Painter, Decorator, Paper Hanger

124 E. Central Ave. Phone 245 Highland Park, Illinois.

I take this means to announce to the property owners of Highland Park and vicinity that hereafter I shall include in each contract for outside painting a clause positively guaranteeing all such work to stand for a period of at least 3 years, and also all wall paper to hold fast to walls for at least one year from time work is done. Ordinary wear and tear excepted. This you will understand is an unusual proceeding and something I could not do without the greatest of confidence in the material and workmanship which I employ. I trust that you will consider this when you contemplate work in my line and take this guarantee for its full worth.
