Don't Make a Mess

OF YOUR PICTURE

It requires expert knowledge and artistic temperament to properly frame pictures. Any good carpenter can make and put together a frame, but few know what kind of a frame to use for the particular picture to be framed. This is where mechanical knowledge ends and the exercise of artistic intuition begins.

Many a Good Picture
Is Absolutely Ruined
In Selecting a Frame

Our picture framers know their business. They have the material to so frame a picture as to get the highest possible artistic effect. No incongruous contrast or unpleasant effects if we do the framing. If you are in doubt as to the character of frame you need for a picture you contemplate framing, come in and ask our picture framer. He can give you the BEST STOCK, BEST WORK, BEST EFFECT and the BEST PRICE of anybody in the city.
