A year ago the Highland Park Park District was organized. The tract embraces the second and wards. The district is governed by commissioners. W. C. Egan is president of the board. Only such street public parks are turned over to the city, pass under their jurisdiction. So far the city has turned Ravine avenue and the public park at the foot of Ravine. The pavement of that street done by the city, whereupon the of the street will become practically complete in the commissioners. Ravine avenue when paved and made into boulevard will be one of the most beautiful and picturesque streets in our city.

Before concluding let me call your attention to one or two reforms that commend and which I hope will receive consideration during the coming year.

Much of the beauty of our city ways is destroyed by unsightly poles. These poles are an eyesore to our people and a detriment to our city. Let us adopt some means of banishing them from our community.

Let us not overlook the promise has been made by the officials of Chicago and Northwestern Railway to construct a new and wider subway. Laurel avenue sufficient to handle traffic at that point.

We should also appeal to the company to consider the condition surrounding their freight depot and see if we cannot persuade the company to rest that situation.

And finally let us all put our shoulders to the wheel and work together in unison and harmony for all that goes to the Highland Park a place of rest and refinement and of quiet, contented homes.

Respectfully submitted.
