The Board of Trustees at meeting on the 28th, ordered that a warrant issue to the Village Treasurer directing him to place in the Library fund \$1404.23, funds collected for the library fund but held (through oversight) in the General Fund. This results from the habit of the County Treasurer's office paying over the library collections as general funds. The Village under the statute, authorized the Council to levy a two mill tax for a public library. The Council levies as authorized and directed by law. The County Clerk refuses to obey their mandate to spread the library tax separately because he cannot discover a way to collect a special fee for doing it, and the County Treasurer pays it to our Treasurer as general funds, and leaves that officer to figure out the division.

Glencoe Water Supply.

President Hughes at the Council meeting on the 28th submitted an interesting statement regarding an interview between himself and President Greeley of Winnetka. He was informed by Mr. Greeley that the Winnetka Council have it in contemplation to enlarge the intake to their water works during the present season; and before undertaking the large expenditure involved, in this work they would like to secure some assurance from Glencoe that we will be willing to renew or extend the existing contract for water supply. The present agreement between the two villages dates from September 16, 1893. It was first for ten years, with option on the part of Glencoe for a renewal for another ten. It was renewed, so that the existing contract has yet to run to September, 1913. Mr. Greeley suggests an extension now for ten years more, as giving Winnetka the needed assurance to go ahead and at the same time carrying the agreement forward to 1920, with provision for further extension then, if agreeable to Glencoe.

Mr. Olson thought well of the suggestion to make the seven year extension suggested by Mr. Greeley. Under such an extension, it would be proper for Glencoe to pay the rate fixed in the present agreement for the three years it has yet to run—viz: Seven and one-half cents per thousand gallons; but for the other seven years following that, and for later extensions of the agreement if made, he thought Glencoe would be entitled to a lower rate.

The original agreement provided that Glencoe should pay eight cents per thousand gallons until the annual take should exceed twenty-five millions. When that was exceeded the rate should be seven and one-half cents. Glencoe has been using more than 25,000,000 for several years, and is now probably exceeding sixty millions. Mr. Olson's suggestion was that the present rate of consumption, and still further, the steadily increasing amount that will be taken each year, ought to entitle Glencoe to a more favorable rate than the present one.

Mr. Olson moved that Mr. Hughes be requested to give President Greeley the desired assurance that Glencoe was willing to engage for a renewal or extension as suggested and would pay the present rate up to the date which marks the expiration of the existing agreement; but that she would expect a more favorable rate for the remaining seven years, and President Hughes was desired to try to reach an understanding with the Winnetka Council as to what rate they would be willing to grant. This motion of Mr. Olson was adopted, and Glencoe water takers will await the outcome of negotiations with considerable interest.

FAST AUTO FOILS BANDITS

Chauffeur Speeds Up When Command to Halt is Given—Shots Fly Wild.

Santa Barbara, Cal., June 29.—Two highwaymen attempted to hold up E. E. Ballinger of Denver and a party of friends while they were motoring north through the Casitas pass, half way between this city and Ventura. The men were armed with rifles. At the command to stop the chauffeur speeded up and made a turn in the mountain road just as the bandits fired three shots, which went wild.

Curtis May Fly Across Lake.

Chicago, June 29.—Glenn H. Curtis, famous aviator and inventor of aeroplanes, while in Chicago said he might be one of the contestants for the Walter Darlington prize of \$5,000 for the first successful flight across Lake Michigan from Chicago during the aviation meet July 2, 3 and 4.

STATE HAPPENINGS

Rock Island.—Maj. W. C. Hawes, head clerk of the Modern Woodmen of America, stated that in view of the charges filed against officers of the society before State's Attorney Wayman, at Chicago, he proposed this week, when the executive council meets in monthly session, to demand that the state insurance department be asked to make an investigation of the society's affairs.

Hawes pointed out that while the directors are charged with exacting commissions for themselves from banks as the terms of depositing the funds of which they have charge, no reflection had been made on the management of the society's affairs. "I do not propose that there shall be any misunderstanding by the public with reference to the management," he said, "and for that reason I propose to ask that every department be examined without delay. We have nothing to conceal here."

Chicago.—State's Attorney Wayman will this week investigate the charges that certain officers of the Modern Woodmen have been enjoying a "takeoff" from deposits of the order's funds in banks. These deposits on April 1 last were about \$3,200,000.

F. S. Webb, who is preparing a demand that State Superintendent of Insurance Fred W. Porter investigate the Woodmen order, which has not been the subject of such an inquiry since 1906, finished his formulations of charges, and said his document will reach Springfield this week.

"Much worse matters than extravagance will be shown," he said. "My work in this direction is not to harm the order, but to save it."

Springfield.—The losses of the Farmers' Elevator company of Illinois, 23 miles east of Springfield, will depend largely on just when the farmers, who stored grain in the elevator during the winter demand payment. The elevator has been closed down for a week pending an investigation as to why the company had sustained losses estimated as high as \$40,000. The stockholders held an informal meeting and decided to increase the capital stock of the company from \$10,000 to \$25,000 and failed to reappoint G. H. Gray to the position of manager. It developed at the meeting that stored grain had been shipped to commission merchants and the proceeds used to buy futures on the board of trade. The futures were in May corn which suffered a big drop, and the necessity of putting up sufficient margins to cover these deals resulted in big losses.

Chicago.—Concealed in a gunny sack, the bodies of two male infants, twins apparently, were found in a ditch in East Ninety-fourth street near Cottage Grove avenue. Police of the Grand Crossing station began a search for the parents, but have no clue. The sack was found by Mrs.
