## Lake Bluff News.

The record of weekly enrollment for the first three at Gads Hill Encampment was 938. The actual number of individuals cared for during this time, however, was 625. As, while some come for only a few days, others remain two and three weeks or longer, according to arrangement.

A visit to the grounds at a time of day presents all manner of interesting scenes. Breakfast over, the residents of this tented village, about their various tasks and pleasures. The waitresses (who earn their board by serving in the dining room) are clearing of tables, then after sweeping the floors the women take turns at dishwashing. There is always a demand for the laundry, for clothes will need washing, even on one's vacation, and the lines of clothing behind almost every tent bespeak a desire to keep clean. Each morning and each afternoon an inspector visits every tent, awarding a prize banner for the neatest one.

Outside, the lads of the Boy's section spend an hour each morning "picking up the grounds." There is kindergarden for the small children and kitchen-garden for the girls a trifle older. These classes are held in Assembly Hall and daily are visited by many mothers who bring their knitting or crocheting and look on with evident interest and pleasure.

The waitress girls would seem to join a basketry class, held twice each week under the trees or down by the lake, the majority thus being enabled to have four lessons. So far great enthusiasm has attended this work and some exceptionally pretty baskets have resulted. In several instances a market has been found for them which, of course, has the effect of inspiring the makers to more and better work. The waitresses have also an opportunity to play basketball and indoor baseball, under the competent direction of a volunteer worker, as well as to have swimming lessons five days of the week.

The swimming hours are 10 a. m. and 3 p. m. and it takes but the tap of the bell to produce a wild scramble for the beach. One tiny half starved looking little chap listened to the announcement, on the day of his arrival, that everyone would meet at the top of the bluff when the bell rang. Then he turned to a worker who seemed to be near, and whispered, "Say, teacher, is de bluff de lake?" It developed that never in his life had he seen Lake Michigan.

Half an hour before each meal time the mothers who have children under two years old bring them to the baby fold to be fed, and this is always a lively time for the mothers, as well as for the nurse in charge. Meal time in the main diningroom is an interesting sight, when the Encampment family (with the exception of those who eat in the Cooperative section) line up to march in to their seats.

The mothers' meetings have an important place in Encampment life. Several afternoons a week they meet for a social time, and under the leadership of Mrs. Marcia, talk over matters of interest to all.

A call from any of the board members, or others who come in automobiles, is generally a signal that either

some of the mothers or the children may have a little ride. In they pile, proud and smiling waving their hands as they ride down the road. Through the kindness of a board member, tickets to the Ravina concerts have been received once or twice each week thus giving many a little group an unusual musical treat.

Mr. and Mrs. Frederick M. Steele, of Highland Park, have made possible a new department at the camp, which will be opened the first of the week. It will be known as the Nursery, and is for the accommodation of children whose mothers must work all day away from home, and who are too old to be placed in a day nursery. Mothers who are able to pay what they can for this privilege of knowing that their children are being cared for under wholesome conditions—instead of having always the inevitable fear that they may be falling into the mischief of the streets or the "nickle show." Where payment is impossible, however, the expense will be borne by the general camp fund. At present this section has accommodations for only 16 children, (they will be in charge of a matron), but it is hoped that ere long the enlargement of such an obviously splendid plan may be possible.

This is Winnetka week and Dr. C. W. Hawley, of Chicago, gave a stereoptical lecture last evening which was enthusiastically received by the Encampment audience in Assembly hall. Mr. and Mrs. John Hardin were among those who came out for the evening. Next Sunday, Dean Sumner will speak in the afternoon at 3:00 o'clock, and a number of the North Shore people will take part in a song service. They are Mr. and Mrs. C. W. Hately, Mr. Ralph Small, Mr. and Mrs. Van Am, Mrs. John Burnett, Mrs. John May, Mr. Winship, Mr. Miller Callahan, Mrs. A. F. Callahan, Mr. and Mrs. John W. Scott, Mr. and Mrs. Victor Elting and Mr. and Mrs. John Hardin.

The new library, built and equipped by Mrs. MacGregor Adams, is already proving its great value, though it has been opened for use less than a week. Grownups and little folks alike gather to read, to look at pictures or to write letters. It is a most homelike, hospitable place, and the giver cannot but feel richly rewarded for her generosity.

The game tent is always occupied, as are the sand piles and swings and hammocks. Here and there little groups are gathered for "just playin'". Mothers may be seen in front of the tents, knitting or darning, or simply resting. For all too many this last named experience is the rarest thing in life.

After supper the children usually go out doors or in Assembly Hall, if the weather be stormy—for a brief period of games and stories. Nearly every evening an entertainment is held in the hall. Sometimes the program is made up of "local talent", and again it is furnished by one of the North Shore towns. Often the Hull-House boys, whose section is on the beach below the bluff, are invited to share these pleasures. At 9 o'clock, unless some special dispensation is granted, the bell rings which means, "Everybody to your tents." Then quiet soon settles over all until the following daybreak.

## LAKE BLUFF LIBRARY DEDICATION

Fifty women assembled Monday afternoon in the new library which Mrs. MacGregor Adams has given to the Gads Hill settlement and dedicated it at a luncheon followed by simple ceremonies. Throughout the day other women dropped in to look at the new building, and if there were those who had expected to behold a large stone edifice such as the unmodified noun library inevitably suggests, they did not evince disappoint-
