### FRANCIS JOSEPH IS EIGHTY YEARS OLD

Relatives of Austria's Aged Ruler Celebrate His Birthday in Little Town of Ischl.

Ischl, Upper Austria, Aug. 18.—Francis Joseph, the emperor-king of Austria-Hungary, is eighty years old today, and all the country is celebrating, while here in this little town, scores of the members of the house of Hapsburg are assembled to do honor to the head of the family. Ischl is finely decorated in Alpine fashion with garlands of pine and juniper and all the beautiful mountain flowers, and this evening great bonfires will be lighted on many mountain tops.

So many of the aged ruler's relatives are here that he had to receive them in groups at the imperial villa, where he has been living for more than a month. The first to congratulate the emperor were the members of his immediate family. These included his two daughters, Archduchesses Gisela and Marie Valerie, their husbands and children, Archduchess Elizabeth Marie, the daughter of the late crown prince, with her two children, and the emperor's only surviving brother, Archduke Ludwig Victor. Then came the other family groups in the order of their right to the throne.

At 2 o'clock a grand dinner was given by the emperor to all the adults of the imperial family in the Kurasaal. The guests numbered 76, all members of the house of Hapsburg. The children had their own festive table in the villa.

During the day the emperor received messages of congratulation

from all the rulers of the civilized world and from hundreds of other persons in foreign lands as well as in his own dominions where he is so deeply beloved. He seems to be in robust health and has been taking long walks daily and going on deer hunts whenever the weather permitted.

### FEVER REVEALS BIG STEAL

Discrepancies Found in Accounts of Clerk, Who is Dying Ignorant of Discovery.

New York, Aug. 18.—Adolph Gabriel, confidential clerk for a New York leather company, is dying of typhoid fever in his uptown residence, unconscious of the fact that an examination of his books, made since he became ill, has revealed discrepancies which led a Supreme court justice to issue an attachment against him for \$36,000.

Gabriel had been in the employ of the concern for ten years, and such confidence was reposed in him that no examination of his books had been made in several years.

According to his employers, it was discovered soon after he fell ill that he had filled in several checks for amounts greater than were indicated by the stubs, or by the cash book. An examination followed, and showed, it is alleged, that he had converted the difference to his own use, between September, 1907, and July, 1910—at least \$36,000 being missing.

Most of the money is believed by officers of the leather company to have gone into unsuccessful ventures in Wall street.

**MARKETING by TELEPHONE**  
 THE retail merchant's telephone serves not only as a salesman  
 but also as a purchasing agent.  
 When a merchant finds that he is going to run out of a line of goods, he calls up  
 the wholesaler or factory and not only orders a new stock, but comes to an agree-  
 ment on the price and the time of delivery.  
 The unexpected needs of his customers can be met with the least possible delay.  
 If the merchant cannot find what he wants in town, the Long Distance Service of  
 the Bell System brings him into immediate communication with other cities and  
 other markets.
