GLENCOE VILLAGE BOARDS.

At the meeting on the 6th, the Improvement Board transacted little business of importance. The plans for street improvements in the district west of the railways and north of South avenue are extensive, but for the present they are being discussed by the property owners who have been holding informal meetings with a view to agreeing among themselves just what character of improvements they want. It is expected when they have reached a general agreement, the Board of Local Improvements will formulate the necessary proceedings to put the matter in tangible shape for action.

The matter of a Sewer system for the Sylvan Newhall subdivision still hangs fire. The present halt arises from a difference of opinion between the Board and the owner of the property between the Sheridan Road and the Lake. A communication from him was presented at the meeting on the 6th offering to "accord" an easement for the line and for the outlet plant on the beach on certain

conditions. A lengthy discussion of his letter followed. The Board regarded the conditions to restrictive to be workable. The attorney told them that under these conditions it would be impracticable to have a special assessment made for any part of the work. Regarding the location of the outlet plant on the beach, it was agreed the members would visit the ground Saturday afternoon, with the engineers, the better to judge just where the plant should be placed. The present plan of the engineers is to place it immediately in the rear of the breakwater at the mouth of ravine. Some of the Board think it will be too much exposed there, to the force of the Lake waves and ought to be set back on higher ground where the waves cannot harm it. The owner of the property is not willing to have this done, and the engineers think the location they propose on the beach will be entirely protected and safe.

A proposition was introduced by President Hughes for the opening of a new street from Snyder's crossing along the east side of the railways to the village line, to be carried further by the Township Commissioners to the County Line; it being stated they were willing to cooperate for this purpose. The Board adopted a resolution proposing this improvement and appointing a public hearing for the scheme for the 16th inst. An informal meeting is to be held on the 17th with the Commissioners, who asked for positive action by the Board to enable them to accept an option from the owner of the ground which expires at that date. North of the Village line, it is stated a 66 foot of ground next east of the electric road was left for road purposes when the ground lying east of that was sold to the Lake Shore Golf Club. It is necessary to secure this strip to afford an outlet for the proposed opening of Snyder's Crossing to the Village line.

The Board adjourned to the 16th inst. The Board of Trustees held their regular monthly meeting the same date. All present except Mr. Goss. The main business of the session was provision for payment of the month's bills and receipts of the reports of Village officers. The report of the Treasurer showed \$7318 59 cents in the General Fund, though President Hughes cautioned the Board to remember that there is always liable to be a lot of warrants outstanding so that the balance is not always actually as large as the Treasurer's figures show. The water fund balance was shown to be \$3274 33, three thousand dollars having been borrowed from this fund by the General Fund a month ago. It was shown that there is \$29 770.67 balances in twenty special assessment funds, and \$1676 85 in the Library fund.

The Clerk's report showed the receipts of that office in August \$351. The Day Police reported arrests during the month of following persons for riding on sidewalks in violation of the village ordinance: R. S. Edwards and Olaf Berg of Glencoe; Christina Heinig, Paul Blake and Angelo Bernardis, of Winnetka. The Fire Chief reported two alarms during the month—one of a fire west of Downing avenue, the other on Railroad and Hawthorne avenues.

Payment of bills was authorized as follows:

Chicago Post, legal notices	\$ 1.62
