**MARKETING by TELEPHONE**

THE retail merchant's telephone serves not only as a salesman  
but also as a purchasing agent.

When a merchant finds that he is going to run out of a line of goods, he calls up  
the wholesale or factory and not only orders a new stock, but comes to an agree-  
ment on the price and the time of delivery.

The unexpected needs of his customers can be met with the least possible delay.  
If the merchant cannot find what he wants in town, the Long Distance Service of  
the Bell System brings him into immediate communication with other cities and  
other markets.

**Chicago Telephone Company**  
Every Bell Telephone is the Center of the System
