Mrs. R. D. Coy is in Quincy, Illinois, where she will visit friends and relatives for ten days.

Mr. A. J. Whipple who has been abroad for the past six weeks has returned home.

Mr. and Mrs. Harvey L. Pond have taken possession of their new home on South Glencoe St.

Mr. and Mrs. Titsworth returned Wednesday from a canoe trip of one hundred and seventy-five miles in Northern Wisconsin.

Mrs. August Ziesing and daughter, Miss Margaret left Wednesday for Woster, Ohio, to spend two weeks with Mrs. Ziesing's mother, Mrs. Guthrie.

Miss Eleanor Hurford died on Tuesday morning after an illness of nearly nine months. Miss Hurford was twenty three years old and has many friends here who are deeply grieved over the death. Miss Hurford was buried at Rose Hill on Wednesday.

THE VILLAGE BOARD.

The Board of Trustees and the Board of Local Improvements held meetings Tuesday evening, the 11th The Trustees finally disposed of the Green Bay Road business by awarding contract for the improvement to Fred Ebert, of Glencoe at his bid \$3123.25; it being agreed the Village would contribute \$500 of this less the compensation of the engineers; the contractor to look solely to the property-owners for the rest of the money. It appeared the property-owners had not got their cash together President Hughes submitted a list showing the distribution of the cost among the several owners of frontage Five days were allowed the contractor to accept the reward Following is the detail of the list referred to:

Table listing names and amounts: August Beinlich \$590.35, Agnes Corrigan 203.61, Chicago Title & Trust Co. 210.29, Mrs. Elizabeth Dietrich 466.87, Frank Dietrich 256.89, George Dietrich Jr. 203.61, John Dietrich 99.62, Alex De Marco 43.20, Oscar Hjelte 43.82, Hugh A Hammer 63.01, Joseph Schramm 24.28, Margaret Schramm 444.02

The Street and Alley Committee were instructed to have Mary Street between the Green Bay Road and the railways. Among the obstructions to be removed are some beehives belonging to the owner of adjacent property If volunteers should be called for by the street Inspector to aid in this removal, it may be well to remember that bee-sting is a sovereign remedy for rheumatism, and this will be a fine opportunity for persons desiring to "take the treatment."

In the Improvement Board, engineers first estimate on work done by Swanson and Co who are laying water mains in Sylvan Newhall Subdivision, was presented and allowed for \$1905.18 bonds for which will be delivered to the contractor.

Following this, bids were opened for sidewalks, some of which have been advertised and re-advertised till they have grown gray. As a matter of fact, only one bid was received that of E R Bradford of Evanston, which was limited to the seven thousand linear feet to be laid east of the tracks under an ordinance passed three years and a half ago The bid was opened and read; and the price being thought a little high action on it was deferred till next meeting.

The bids taken for sidewalks on the 27 September, for walks on the east side Grove street from Fletcher to the south Village line, on the west side Downing avenue and in the streets in the Sylvan Newhall subdivision some thirteen or fourteen thousand linear feet in all were taken up for award, and contracts for this work under four separate special assessments were awarded to Joseph Delhaye, of Highland Park It is understood the work to be done this fall will be limited to the grading and laying of the cinder the concrete to be laid in the Spring.

It was reported by the Attorney that the ordinance providing for supplementary sewers in Oakdale and Drexel avenues, in the extreme southern section of the Village, and the ordinance for a system of supplementary water-mains south of Jackson avenue, had both been confirmed in Court. Directions were given that advertisement made through the usual channels asking for bids for this sewer and water-pipe work, bids to be opened at meeting to be held on the 25inst.

Some bills for special assessment work, amounting to a little over four hundred dollars were presented and recommended to the Board of Trustees for payment.

The Board resumed consideration of the scheme for opening a road from Snyder's Crossing along the east side the railways to the north Village line; and the scheme was adhered to and preparation of ordinance ordered, on motion made by Mr. Olson.

The scheme for opening up a road on a line running due west from Sylvan Newhall Subdivision to the West Village line, through the farms of Beinlich, Dietrichs and Schramms, was taken up for public consideration A number of the property-owners affected by it were in the lobby; and one after another they declared with emphasis that they were all opposed to any such project, as were also their neighbors not present for whom they spoke August Beinlich, Jr., Frank Dietrich, Thomas Corrigan and Joseph Schramm were among the objectors who spoke They declared they did not know anybody who was in favor of opening such a road; and did not know of anybody anywhere who needed such a road.

The hearing was discontinued, on Mr. Olson's motion to the meeting to be held on the 25th.

Electricity in your Home

King of illuminant and power that assumes the heavy labor at surprisingly low cost. We wire homes in the best manner at cost. Here are some Standard Propositions. You may have a five room house wired and equipped as follows: Parlor or Living Room, 1-2 ft. No. 1409 B. S. fixture, C. P. Socket, 2 etched glass shades, Dining Room, 1-2 ft. No. 1409 B. S. fixture, C. P. socket, 2 etched glass shades, Kitchen, 1-4 ft. drop cord, 1 etched glass shade, Two Bedrooms, 2-4 ft. drop cords, 2 etched glass shades. Bath or Hall, 1-4 ft. drop cord, 1 etched glass shade. ALL FOR 25 DOLLARS.

Or you may have it equipped less expensively these rooms included: Parlor and Living Room, Dining Room, Kitchen, Two Bedrooms, Bathroom or Hallway ALL FOR \$19.50

You may have a six room house wired and equipped as follows:—Parlor or Living Room, 1-2 ft. No. 1409 B. S. fixture, C. P. socket, 2 etched glass shades, Dining Room, 1-2 ft. No. 1409 B. S. fixture, C. P. socket, 2 etched glass shades, Three Bedrooms, 2-4 ft. drop cords, 3 etched glass shades. Bath or Hall, 1-4 ft. drop cord, 1 etched glass shade. ALL FOR \$27.95

Or you may have it equipped less expensively, these rooms included: Parlor or Living Room, Dining Room, Kitchen, 3 Bedrooms. Bath or Hall ALL FOR \$21.90

North Shore Electric Company

THE VILLAGE BOARDS

The regular monthly meeting of the Village Trustees was held Tuesday evening, the 4th, and a meeting of the Improvement Board the same evening. All the members were present, and a considerable lobby was in attendance in expectation that awards would be made of contract for sidewalk work, and for the paving of the ten thousand feet of streets in the Sylvan Newhall subdivision. It was expected also there would be an award by the Trustees for the Green Bay Road work and an arrangement with the property-owners for the pay. These expectations met with disappointment all around.

The Trustees met first and took up at once the Green Bay Road business.

The bidders, Fred Ebert of Glencoe (\$3123.25) and Schmidt Construction Company of Chicago (\$3200) But Mr. Ebert's bid could not be accepted by the Board till the cash to be put up by the property owners had actually been paid over in escrow. It was soon ascertained that the cash was not present, though Mr. Beinlich explained that so far as he knew the property-owners were all willing to pay their several shares. As some had in contradiction of this assurance, Messes DeMarco and Hjelte (living on Green Bay Road east of Vernon) admitted in effect that they did not have money and did not see just how they were going to get it.

The fact that the cash was no ready to be paid over made it impossible to award contract last evening.

At this juncture another rather embarrassing element was introduced.

The question was raised whether in case the property-owners should come in at next meeting with their share of the money the Village was in position to obligate itself to pay the \$500 which it had been virtually agreed it would assume as its share. President Hughes, who has all through been very friendly to a contribution by the Village of this work, has been making some careful inquiries into the exact state of the village finances and he announced as a result of his investigation that the resources for the latter six months of the year were so small it would require the closest economy to get through the year without getting stranded before the tide would come in next spring.

In a word, the Village did not have the \$500 to spare for this Green Bay improvement, desirable as the work confessedly was. President Hughes stated that some funds were yet to come from the County Treasurer in his final settlement for the year's levy, but he could not say just what the amount would be. But certainly the facts stated, and discussed by members with alively interest, fully justified his first statement that unless there was a resort to borrowing for current expenses, the severest economy would be necessary to pull the ship of State through to next April.

The only thing that could be done for the evening in regard to the Green Bay improvement was to defer the matter to the next meeting, on the 11th and that was done; President Hughes taking it upon himself meanwhile to have the proportion each one of the property-owners would have to pay figured out for them on the basis of their frontage.

One suggestion in regard to the \$500 needed to help out on the Green Bay work was that the village borrow money, issuing a bond thereof. One of the bidders in the lobby said their bids were made with the understanding that they were to be paid in cash, and he did not relish the suggestion to pay in bonds.

In the Local Improvement Board, the first business was consideration of the engineers' report on the bids for the sidewalk work, embracing some twelve thousand linear feet of walk. It appeared Joseph Delhaye of Highland Park was the low bidder of all this work.

But he had filed with his bids a letter to the Board with reference and stating

conditions on which the bids were made. What these conditions were was not disclosed publicly; but the Board retired in the Clerks office and held an executive session to consider them, and when they resumed their open session a dopted a motion to postpone the matter to the meeting on the 11th.

The bids for the paving of the ten thousand lineal feet of streets in the Sylvan Newhall subdivision were then taken up. The three bids for this work were by John Hays & Sons' Co., Neperville, Ills. John A. McGarry & Co., Chicago Thos. W. Kelly, Chicago.

The estimate of cost for this work was something over \$26,000 Mr. Kelly's bid was the lowest yet was more than \$3000 above the estimate. The Board considering all the bids much to high, declined them all, and directed that the checks of the bidders be returned.

Mr. Behrens had stated that the view of the delay and difficulty in securing a satisfactory right of way for the sewer system for the accommodation of his subdivision, Mr. Newhall did not wish the paving work let at this time, as the sewers ought to go in first. This statement doubtless had something to do with the action of the Board in declining to entertain any of the bids.

Following this action, President Hughes submitted a new recommendation and estimate of cost for a special assessment and condemnation of right of way were necessary for this sewer system.

This was followed by the adoption of a resolution to carry out this recommendation and fixing the 18th inst. at the hour of 8 o'clock p. m. at the Council chamber at the time and place for a public hearing of the new sewer scheme.

The plan embraces some 250 feet of sewer in Green Bay Road west of the Northwestern tracks and also that part of Railroad avenue lying between Green Bay Road and the North line of the Northwestern station grounds.

At the meeting to be held on the 11th, the Improvement Board will resume consideration of the scheme to open a road from Snyder's Crossing to the north village boundary along the east side of the railways, and will have a public consideration of the other scheme to open a road from the Newhall subdivision on a line due west half a mile south of the County line through the farms of Beinlich, the Dietrichs and Schramms to the west village line. It appears the farmers up there, who do not want any these roads are going to be kept pretty busy defending themselves against these attacks on three sides at once.

HARVEST HOME AT THE LAKE BLUFF ORPHANAGE

Thursday morning, Sept. 29th dawned bright and clear with balm breezes which fortold a perfect day. By nine o'clock friends from the nearby towns began to arrive, especially those who were the heads of committees. Mrs. Townsend Smith of Evanston, Pres. of the Orphanage Auxillary, Mrs. Tucker of Lake Bluff, chairman of the dining room; Miss Gould of Lake Forest who so beautifully decorated the rooms. Mrs. Rayner of Lake Bluff who had charge of the fancy articles for sale and Miss Davidson of Highland Park who attempted to keep the crowd sweet by dispensing home-made candy, and others who were their assistants were here to do their share to make the day a success. By eleven o'clock a constant stream of people was coming on street cars, trains and in autos and carriages, each one bringing some donation for the Home. At noon luncheon was served to about four hundred and fifty visitors. After luncheon a program was given on the lawn, Mr. Hobbs of Chicago being chairman and remarks were made by Rev. Youker. The children in the Home gave some drills and sang a song or two, and little Everett Johnson gave a recitation.
