VILLAGE BOARDS.

No meeting of the Trustees was held Tuesday evening, 29th, but there was a brief session of the Improvement Board. President Hughes and Messrs Goss and Olson were absent. Mr. Sales acted as chairman.

The public consideration of the proposed new road from Franklin Road westward to the west Village boundary had been forwarded to this evening, but it was further postponed to the regular monthly meeting to be held December 6th.

A scheme for a sewer extension in North Green Bay Road from the North end of Vernon Avenue Northwestward for a distance of 1420 feet, and a scheme for an extension of Milton Avenue eastward across the right-of-way of the Chicago and Northwestern Ry., had both been set for public hearing this evening, but through oversight or accident the notices were not sent out in time and it was necessary to appoint a future date for the public consideration of these two schemes. This was accordingly set for the 13th day of December, and the Board adjourned.

TO THE MEMBERS AND FRIENDS OF THE CHURCH.

Fire my barn, but it cannot consume the church, for "the church is in the hearts of the people." Believing this to be your sentiment we ask your thoughtful attention to the following:

Whereas the building of the Congregational Church of Glencoe was totally destroyed by fire Nov. 12, 1910, it becomes necessary to rebuild at once. The fire has revealed the opportunity, and lighted the way to a larger Christian service for Glencoe. It emphasizes the need of an up-to-date church plant, which shall adorn our village, be a credit to our christianity, and bless our homes.

The scope of the Christian church has greatly widened in recent years. It aims to be a house of worship not only, but also a house of work. It aims to minister to every side of man's nature, primarily to the spiritual, but also to the physical and social as inseparably related to the religious life.

Glencoe has no club rooms or gymnasium to meet the general social and physical needs of her boys and girls, young men and young women. A Young Men's and Young Women's Christian Association are distant dreams meanwhile the need is urgent. No church can fully meet that need, yet this church is peculiarly fitted to do much. For years it was the only church in the village and acquiring the nature of a Union church, which character it still retains. Many denominations are represented in its membership, and it is designed to be a church home for all who believe in what are quite universally accepted as the essential and fundamental teachings of Jesus Christ.

This church, therefore, so providentially qualified, looks into the future of our rapidly growing community, and desires to meet its religious needs with the widest and best possible Christian service. It does not aspire to rank as an Institutional church, but rather to embrace certain features needed in the life of the community, especially for the moral and spiritual training of our young people. It proposes, therefore, to erect a beautiful building on the present site including a suitable auditorium, a complete modern Sunday School equipment comprising a main room and class rooms, club rooms for young women, gymnasium, bowling alley, and adequate appointments for social and dining rooms; a church in fact for daily use to meet daily needs.

The project is big, but will be splendidly accomplished by hearty cooperation. A finance committee has been elected to secure the necessary funds, and some member of the same will call on you in the near future. As God has prospered you give, and as you give reflect on what this must mean for the good of Glencoe, and the glory of God.

- Faithfully yours, Douglas H. Cornell, Jacob Schuur, Callman Martin, Ernest M. Kimball, James K. Calhoun, George W. Tracy, John Jeffrey, George J. Pope, Fred L. Holmes, Frank A. Andrew, Building Committee.

A SIDE DISH JUST BETWEEN YOU AND I.

WHERE THE FAULT LIES

We have in our city six first class grocery stores, three fine meat-markets, three first-class drug stores, two up-to-date dry good stores, two banks, four wood, coal and lumber yards, four black smith shops, several real-estate dealers, three tailor shops, two hotels, two boot and shoe stores, two dentists, two jewelry stores, two stationary stores, three barber shops, two livery stables, two automobile repairers, one fruit store, four doctors, one printing office, two paint and wall-paper stores, four lawyers, two hardware stores, two restaurants, in fact there is not a thing that a person should be in need of but what can be purchased here at home cheaper than in Chicago providing you take your own expenses into consideration, therefore I can not see the necessity of doing your shopping out of town, when it is your duty to patronize home trade, you make your money at home, why not leave it with your home merchants; there is times when you are financially broke that you call on your home merchants for credit, it is given to you willingly, but when you go to Chicago to do your dealing, you are obliged to have the money, is it right?

Of course your merchants notice all this, but at the same time they themselves are a little at fault in not letting people know what they carry in stock by advertising; a great many of our merchants advertise, and it is those that

you notice are getting the larger part of the business, for instance Mr. Dale Sweetland, Druggist; Mr. A. Moss, Northwestern Department Store; St. Peter Bro's, Reliable Laundry; Mr. Bilhartz, Harness and Stable supplies; Mr. Alexander Robertson, Hardware; Mr. John Kline, Boot and Shoe dealers; Highland Park State Bank, (notice the Bank Statement published in our issue of the 19th., which is sufficient to satisfy you that they do a large banking business); Mr. Larson, Stationary Store; Mr. Norrien, Storage, Mr. Knack, Contractor of lawn work; Mr. Scheresre, Photographer; Byron Stevens, Hotel; Dr. B. A. Hamilton, Dentist; Mr. J. M. Lang, Contractor; Dr. L. Sexsmith, Dentist; D. McNeil, Contractor, just take a few hours off, visit all the business firms of our city, and you will readily see that the advertiser does the business.

FOR THE WANT OF TRAINING.

I boarded a street car at Central avenue one day last week on my way to Ravinia when the car stopped at Laurel avenue, a lady with a baby in her arms came in the car, in which the seats were all taken up, but not a man was gentlemanly enough to raise and offer her his seat, but in about the center of the car sat an aged lady whom I think was at least 70 years of age, she raised from her seat and tendered the same to the lady with the baby, which she accepted, while the aged lady stood holding to a strap. I saw and took note of this while standing in the rear of the car, and I thought to myself any baby that travels the road and asks for a hand-out at back doors knew more in a minute than any one in that car, (except that aged lady) knew or ever would know. Some of those passengers were very refined looking but were minus of manners.

AN INCREASE.

During the past sixty days the increase of subscribers to the News-Letter has been one hundred and three and before the first day of January we expect a circulation of 1,500, therefore you that advertise can expect good returns. The News-Letter at present goes into almost every home in this city, besides having a good circulation throughout the county. Of late we have had offers from merchants along the line to take their advertisements but refused them on the grounds that the News-Letter is a Highland Park paper, and not here for the purpose of advertising for outside merchants, although offered more for the space then we charge our home merchants.

OUR BEAUTIFUL CITY

About the only suburb along the North Lake Shore but what a newspaper can find fault with its management is "Our Beautiful Highland Park." Go where you will in any part of our city you find the best of sidewalks, clean street crossings and clean streets in all directions. Our City Mayor, with the other officials are sparing no pains in making it more beautiful. As to our police force we have the best that can be found, and where ever you look, can be seen one of our police, while in other suburbs you can never see one when needed. As to our city Alderman, they all work in unity; among them of whom I wish to make mention of is Alderman Fritz Bahr, whose occupation is that of Landscape and who knows for just what purpose the city property ought to be made use of, for instance just walk a few blocks south from the Northwestern depot till you come to Lincoln avenue, and there you will see the most beautiful little park along the Electric line. This was designed and the work done by Mr. Fritz Bahr, which is a credit to our City. As to our City Clerk, Mr. John Finney, well it is not necessary to make any comments on him, as he has been so faithful in doing his duty as City Clerk the past thirty years that the City has, I think, concluded to retain him thirty years more.

As to the great demand for real-estate, renting and building of houses we take the lead. There is but one fault of which I wish to make mention of and that is of our city going to the expense of building a jail as it is unoccupied ten months in the year.

Leaving out politics and working to the interest of the people is just what all our city officials are doing.

Aviators find the ground as hard as ever when they meet it more than half way.
