Monmouth.—Continued drought has reduced farmers to the necessity in many cases of hauling water for the use of stock, while railroads passing through Warren county are also forced to ship water to water stations. The Mississippi river is said to have reached the lowest stage since 1864. Sterling.—Work on the lock in the dam which turns the water of Rock river into the Hennepin canal at this place has been closed for the winter, the formation of ice on the river closing navigation on the canal, through which rock drilled from the river is transported.
