GLENCOE

The Opportunity Club of the Congregational church met on Monday afternoon at three o'clock in the school auditorium...

Mr. E. A. Crosby returned Wednesday morning after spending the holidays in New York as the guest of his sister...

Mrs. Beckenwald spent last week on her fathers farm a few miles west of Shermerville.

Mr. and Mrs. Jacob Schnur leave in about a week for a trip to South America. They expect to be gone for several months.

Most of the young people have returned to their respective colleges to resume their studies.

Mrs. J. H. Lamprecht entertained a number of friends from Winnetka, Glencoe and Highland Park, on Wednesday, with a musical. The artists who so delightfully entertained were Madam Nering and Miss A. Zebrowska violinist...

Misses Fanny Brigham, Margaret Ziesing, and Hazel Goss, held a New Year's reception for their gentleman friends at the home of Miss Brigham on the Sheridan Road on Wednesday afternoon.

The annual church supper and business meeting of the Congregational church will be held on Wednesday evening, January 18, at the Woman's Library club.

The Ladies Guild of the Episcopal church will meet on Monday afternoon at the home of Mrs. Thomas King.

Mr. Tim Enright who has been living in the west for the past year spent the holidays here with relatives.

Miss Jessie DeLang returned to Interlaken, Ind., last Monday after spending the holidays with her parents, Mr. and Mrs. F. C. DeLang.

Mrs. C. W. Hass entertained with bridge this evening at her home on Hawthorne ave.

Village Board

The Board of Local Improvements held a meeting Tuesday December 27. They received the Engineer's report on bids opened on the 20th. Contracts for the paving the streets in the Southeast quarter of the Village...

Several new special assessment schemes were launched. One was for a system of concrete sidewalks in parts of Greenwood, Jackson, Jefferson and Monroe avenues. Cost estimated at \$5720 85. Another was for sidewalks in Linden, Woodlawn and part of Jackson; cost estimated \$197 10. Another was for a water main in North Railroad avenue...

set for January 10th. The public consideration of the scheme to open a new road from the Sylvan Newhall subdivision westward across the railways to the west village line which has been kept alive now by postponements for a couple of months, was again continued to January 10th. It is understood this scheme is part of a grand scheme for a boulevard along the west Village line, as far south, perhaps, as the new Septic Tank.

Balances of contractors for reserves held under contracts for special assessment work in the past were ordered adjusted as follows: T. H. Iglehart, Special 160, sewer in Lincoln, \$227 06. Edward M. Laing, Special 161, paving Longwood avenue, \$117 15. Wm. Davidson, Special 166, water main in Monroe avenue, \$328 81. No meeting of the Board of Trustees was held.

HIGHLAND PARK

DEATHS

Despite the inclement weather of last Monday, St. Mary's Church was taxed to its utmost capacity by the throngs of people that came to pay their tribute to the memory of William Maroney. This unusually large gathering was a splendid testimonial to the character and worth of the deceased. He was to well known in life to have his death call forth any extensive eulogy in the columns of our paper. Suffice it to say here that the welfare of our community will be greatly advanced if we could have many like him in our midst. His unqualified honesty, his proverbial sobriety, his unwavering fidelity to party and to creed made his life worth while, and mark his death as a distinct loss to this community. No where will his loss be felt so keenly as in the home circle where he proved himself a devoted husband and a fond father. To those who have every reason to mourn his death, we beg to tender our sincere and hearty sympathy.

Michael Herdklotz died at his home in Highland Park, Illinois, on Thursday evening, December 15, 1910.

Mr. Herdklotz was born on Queen Ann Prairie three miles north of Woodstock, Dec. 23, 1846, in which vicinity he spent his boyhood days and grew from youth to manhood.

Mr. Herdklotz's people were staunch Calvinists from along the Rhine in southern Germany. In 1838 when Queen Ann Prairie was a forest where the Indians lay in wait for the deer as they came to drink at the creeks. Mr. Herdklotz's father came here as one of the early pioneers and he was one also of those firm characters that saw and helped the new country develop.

On May 2nd, 1871 Michael Herdklotz was married to Mary Zimmer. They spent their early married years at Queen Ann and in 1888 moved to Highland Park which place he has made his home since that time. Seven children were born to this union four of whom are living two sons and two daughters. Mrs. Henry Christmann of New York City, Mrs. Fred R. Moon and Elmer Herdklotz of Highland Park and Arthur H. Herdklotz of Woodstock. Besides the saddened wife and children, Mr. Herdklotz leaves one sister, Mrs. Fred Markus of Chicago and five grand children.

For several years Mr. Herdklotz had been an invalid but his wife, a woman whose loving nature brought every possible help to her husband in brightening the days and lessening the trials of an invalid, made the way much lighter.

A short service was held at the home in Highland Park by Rev. R. C. Dobson, early Sunday morning and the remains were taken to Woodstock. The funeral was held at the Presbyterian church, Rev. S. C. Hay officiating while the young people's choir rendered three appropriate selections, Nearer My God to Thee, Lead Kindly Light and The Lord is My Shepherd.

Mrs. E. A. Mears, a prominent member of the First Baptist church and a woman noted for her work among the sick and indigent, died Wednesday. Mrs. Mears was the daughter of the late Rev. W. W. Everets, D. D., who was for a long time pastor of the First

Baptist Church of Chicago. For the last 13 years she had been a resident of Minneapolis and before coming here lived in Fargo and Minot. She is survived by her husband and five children, William B. Clarence T. Norman T. Margaret and Henrietta Mears, and a sister, Mrs. John C. Bunckbee. The funeral services will be at the First Baptist church Saturday at 3 p. m., and interment was at Rose Hill cemetery Chicago.—Minneapolis Journal.

A SIDE DISH JUST BETWEEN YOU AND ME DECEIT, BE AWARE

One day last week while standing at my case setting type my mind wandered back to several of my old acquaintances of twenty and twenty-five years ago, and more especially to a couple that at that time had all the luxuries one would wish, besides being young and handsome; but by-and-by he begun using intoxicants, and on one occasion came home drunk, abused and struck his wife, and from that on there was a continual quarreling, the young and beautiful wife receiving almost daily blow after blow on her head and body until at last she became broken down, and several months ago her health began to get worse and worse—doctors said there was no cure for her, and at last she but a few days ago passed away with Finger Marks Upon Her Throat, indicating death by strangulation.

To see the once handsome gentleman and to talk with him one would think he had all the good qualities that a man could wish, but no, he was an "angle on the street and a devil at his home."

Young girls be aware of your selections, as there are men ready to take you from your comfortable home only to make you their slaves and after being broken down you probably will pass away as the one I have just mentioned, "with finger marks upon your throat" indicating death by strangulation; so be aware, as the man I refer to is not the only unhuman one along the North Shore, for there are others "like the snake in the grass" only waiting to charm you with their deceitful tongues.

WHAT A CONTRAST

While walking west on Laurel avenue Christmas morning I noticed a little boy about ten years old poorly dressed and with shoes on which hardly hung to his little feet; and standing there shivering from the cold was what attracted my attention. I was just in the act of speaking to him when the little fellow dashed up the street; just at that moment a fine dressed lady passed by, and back of her was a little dog being led by a four foot chain, around the dogs body was a beautiful embroidered blanket and around its neck was a blue ribbon tied with a bow, and in her hand she carried a small whip by-and-by she probably thought the poor little "dog" was tired, and picking him up started across the street; I thought to myself if that little fellow which I had just seen with his thread-bear clothes and soleless shoes only had some one to clothes and put shoes on him and then carry him to their bosom in place of bestowing all kindness upon the little dogs it would be more christian like.

HOW THE MANAGER GOT HIS WEALTH

A child is born in the neighborhood the attending physician gets \$10. The mgr. gives the loud-mouthed kid and happy parents a send off and gets \$0.

When it is christened the minister gets \$10 and the mgr. gets \$0. It grows up and marries. The manager publishes another long winded article and tells a dozen lies about the "beautiful and accomplished bride." The minister gets \$10 and a piece of cake and the manager gets \$000.

In course of time it dies. The doctor gets from \$25 to \$100, the manager publishes a notice of its death and an obituary two columns long, lodge and society resolutions, a lot of poetry and a free card of thanks and gets \$000.

Is it any wonder that I'm rolling in wealth. eh!

COUNCIL CHAMBER CITY OF HIGHLAND PARK

Minutes of regular meeting of the City Council of the City of Highland Park, held on Tuesday Evening, January 3rd, 1911.

OFFICERS PRESENT:— The Hon. Mayor Dooley, Alderman Tillman, Kline, Everhart, M. C. Pherson, Doty Stevens, and Bahr. Absent:— Alderman Shields. Minutes for December Meeting were read, corrected and approved. The following communication was presented:— WAUKEGAN' ILL., Dec. 21, 1910 To the Mayor and City Council City of Highland Park. Mr Wm. Dooley, Mayor. Gentlemen:—

Under agreement dated Dec. 1 1908, we now furnish the City of Highland Park with thirty-nine (39) Nonenal thirty (30 c. p.) candle power encandescant lamps, consuming not less than 100 watt of electricity per hour.

Since the above agreement was made, the new Tungsten Series Lamp has come on the market.

This lamp will give 32 1-3 more candle power, has better distribution curve and is particularly adapted for Street Lighting Service, and being desirous of maintaining our Street Lighting Service at the highest standard, we ask that your Honorable Body grant us permission to replace the present (30 c. p.) candle power Incandescant lamps mentioned in the agreement with the forty [40 c. p.] candle power fifty [50] watt, Tungsten Series lamps and to operate these during the unexpired portion of the agreement. The price will remain the same as at present, namely twenty dollars per lamp per year.

Awaiting your reply I remain, Very respectfully, Jno. S. Reesman, Supt. Norh Shore Electric Company.

On motion of Alderman Bahr, seconded by Alderman Stevens, the above communication was referred to the Street & Alley Committee, with power to act. Motion was carried.

Engrossed ordinance licensing vehicles was presented and on motion duly seconded, same was referred to the Judiciary Committee.

Engrossed ordinances for the construction of a concrete sidewalk on the easterly and westerly side of Dean Avenue were presented and on motion of Ald. Doty, seconded by Ald. Kline, action on same was deferred indefinitely.

An ordinance providing for the construction of a viaduct across Laurel Avenue by the Chicago Northwestern Railway Company was presented and on motion of Ald. Doty, seconded by Ald. Stevens same was referred to the Finance Committee to report on same at the next meeting of the City Council.

The following report of the City Physician was read:—

Highland Park, Ill. Jan. 3 1911. To His Honor, the Mayor, and Members of the City Council.

I wish to report to your honorable body the work done and accomplished by the Board of Health with the assistance of the resident physicians of the City:— Dr. L. M. Bergen had charge of the inspection of Elm Street School and has inspected over 500 children every other day and we must give him credit for careful work done in keeping down contagious diseases by early diagnosis and isolation of

the sick. Up to date he has taken out one child with diphtheria, one of those mild ambulatory cases that spreads contagion faster than 20 doctors can keep up, within weeks, but by early diagnosis and isolations we have been spared an epidemic which would cost the citizens of Highland Park untold expense, sickness and possibly death by delayed discovery.

Dr. A. R. Sheldon has had a similar experience at the High school where he has been inspecting 210 pupils, three times a week and to much credit can not be given him for the faithful performance of his duties. Dr. H. S. Haskins who has charge of the infant class on Central Avenue inspecting from 60 to 75 children three times a week has had the good fortune to find but one case of tonsillitis which demanded exclusion but nevertheless is constantly on the watch for suspicious cases; which is the only sure way of protecting the rest of the little ones. I wish to say, I have carefully inspected the Lincoln Avenue School containing 93 pupils and the Ravinia School containing on an average of 28 to 35 and have found them all to date, in very good physical condition as far as contagion is concerned. Another point I wish to present to your honorable body is:—Dr. L. M. Bergen has a laboratory fully equipped with all modern appliances for the examination of cultures taken from the throats of children and is doing early prompt and good work for the inspectors which is a saving of time [which is of the most important in diphtheria] from 12 to 24 hours in accessible night or day and we cannot be too thankful that we have such an up to date institution in our midst and a physician who is modern in every sense of the word.

Respectfully, Frank M. Ingalls.

On motion duly seconded, report was received and placed on file. The following report of the Commissioner of Public Works was read.

To the Honorable Mayor and City Council City of Highland Park.

Gentlemen:— During the Month of June, July and August our records at the pumping station shows that there was 36 days that the engineers there had to put the relief pump in service and for the larger portion of those days both pumps were working at their full capacity varying from four hours to twelve hours. If either one of the pumps had been out of commission we would have been short of water and since we have put in a large number of new tanks since the month of August it is very apparent that we will be short of water the coming summer unless we increase our pumping capacity to take care of the peak load during the summer months.

Then too, as you all know, the village of Glencoe desires to take water from us which will be out of the question unless you increase your pumping capacity.

It will take ninety days to build whatever design of pump is to be bought and thirty days to install them so that it is time that something should be done very soon to have pumps in operation by the first of June.

You all will agree that we should have a new pump installed for our own use wether we take on Glencoe or not.

I would therefore recommend Continued on 7th Page.
