Value is what you get out of a thing while you have it. It is measured by economy of operation freedom from repairs and trouble, and constant service and length of life.

Price is what you pay for a thing when you get it. You pay at once.

Cost is what you pay for a thing when you are done with it. It includes original price, running expense, repairs, depreciation, trouble, loss of time and loss of service.

The Price of a heating plant from us is as low as we can make it and keep the Value at the top notch and Cost at bottom notch.
