GENERAL NEWS.

NEW YORK—The long expected operation for a blood clot at the base of the brain was performed on Manager Frank Chance of the Cubs. Dr. W. G. Frolich of No. 33 East Sixtieth street, executed the delicate task. Chance was troubled with violent headaches recurrently since early in 1911, necessitating his retirement from active play, which always made the pain greater. His affliction is believed to have been caused by being hit in the head by pitched balls. Dr. Frolich says the operation should cure the dangerous condition permanently.

WASHINGTON—Flying at present is safer than traveling at the same speed in automobiles, and is certainly much safer than automobile racing, said Orville Wright. Mr. Wright is in Washington to inspect several aeroplanes at College Park, Md., which are to be used by the United States government. He said it was possible to construct machines that would carry twenty-five persons or that would travel 100 miles, but at present he saw no necessity for such flyers. He predicted that the aeroplane will supplant train service for making short and hurried trips across the country.

SALT LAKE CITY—Governor Spry expressed confidence that there would be no violence in Bingham, where 4,000 Western Federation of Miners' members are on strike for more pay. The governor was pleased with the reception accorded him by the strikers. President Moyer of the federation also counseled the strikers against violence, and the men abandoned their "rifle pits" about the Utah Copper company's mines in order to listen to both men.

BINGHAM, UTAH—A large army of striking miners, fortified and determined, holds possession of the copper, lead and silver mines of this region and an attack by deputies is threatened. While the strikers, 400 strong and speaking many tongues, dug breastworks, strengthened picket lines and worked out a rough form of military discipline, there was activity in the offices of the mining companies and the headquarters of the county and state officials.

EL PASO, TEXAS—Interrupted while imbibing ice cream soda and giving an interview to a newspaper reporter, Juan Pedro Didapp was arrested by secret service men. Didapp's arrest was on a warrant issued in San Antonio some weeks ago charging violation of neutrality during the former Vasquez Gomez revolutionary movement. Recently he gave an interview accusing Charles P. Taft and H. Clay Pierce of furnishing \$5,000,000 to aid Madero in the rebellion against President Diaz.

POTTSVILLE, PA.—A telegram just received here from the acting secretary of the department of commerce and labor in Washington gives assurance that United States government intends to begin at once a detailed investigation of the causes of the short supply of anthracite coal in New York and New England states. The investigation will be a part of the inquiry into certain other aspects of the coal situation being conducted by the bureau of labor.

CHICAGO—The International Harvester company, now fighting for its existence in the federal courts, laid the foundation for its defense. The corporation had its motion in the hearing before Special Examiner Robert S. Taylor and proceeded to put into the record a large mass of data tending, in the judgment of its leaders, to prove that it is far from approaching the monopoly of agricultural implement production alleged by the government.

LAWRENCE, MASS.—William D. Haywood, the general organizer of the Industrial Workers of the World, pleaded not guilty before Judge John F. Quinn in the superior court here to two indictments charging him with conspiracy in connection with last winter's textile strike in this city. He was held for trial under \$1,000 bonds. No date for the trial was set.

PANAMA—Dr. Bellisario Porras, the newly elected president of Panama has left Costa Rica preparatory to assuming the presidency of this republic on Oct. 1st. He will get a tremendous reception on his arrival here and preparations are being made to make his inauguration the most brilliant in history.

NEW YORK—The New York Press makes the announcement that Henry L. Einstein, sole owner of the paper since 1895, has sold out to Frank A. Munsey. The policy of the paper in future will be Progressive, and it will support both the national and state tickets.

CHICAGO—The last of the bodies of the eleven U. S. navy recruits who were drowned off Lake Bluff Sunday afternoon were recovered. They were those of Walter Woodward, Beardstown, Ill., James W. Bauld, Warsaw, Ind., and Lyman R. Field, Sorento, Ill.

POTTSVILLE, PA.—Eight thousand men employed at the collieries of the Lehigh Coal and Navigation company are on a strike to determine whether the mines of the anthracite region shall be operated as closed or open shops.

**MOOSERS ARE OUSTED
BY THE REPUBLICANS**

**National Committee Turns Out
Seven Roosevelt Men.**

Four Are Summarily Expelled and
Three Others Invited to Resign—
No Protests from Ejected
Men Are Expected.

At New York four of the members of the Republican national committee who favor Colonel Roosevelt for president were expelled by the committee at its meeting at the Hotel Manhattan. Three others who are for Roosevelt were allowed to resign. In each case, the accusation was disloyalty to the party and President Taft.

Four Ousted Without Ceremony.

The four peremptorily ousted are: California—Russ Avery of Los Angeles, to be succeeded by a man selected by a committee of three.

New Jersey—Borden D. Whiting of Newark, succeeded by Ex-Governor Franklin D. Murphy, the choice of the state committee.

North Carolina—Richmond Pearson of Asheville, to be succeeded by Ex-State Committeeman E. C. Duncan, the choice of the state committee.

West Virginia—William S. Edwards of Wheeling, successor to be indicated by the state committee.

The committee selected Charles A. Spies as successor to Solomon Luna of New Mexico, who is dead.

Three Allowed to Resign.

The three whose resignations were accepted are:

Oklahoma—G. C. Priestley of Pottsville, succeeded by J. A. Harris.

Ohio—Walter F. Brown, succeeded by Sherman A. Granger, nephew of General W. T. Sherman, and the choice of the state committee.

Minnesota—J. A. Carswell of St. Paul, successor to be indicated by the state committee.

The Californian, Russ Avery, sent a telegram of resignation in which he told Mr. Hillis that "there is no more Republican party in California." In place of letting him resign the national committee "fired" him. This was done by unanimous vote of the committeemen and proxies of all except thirteen states.

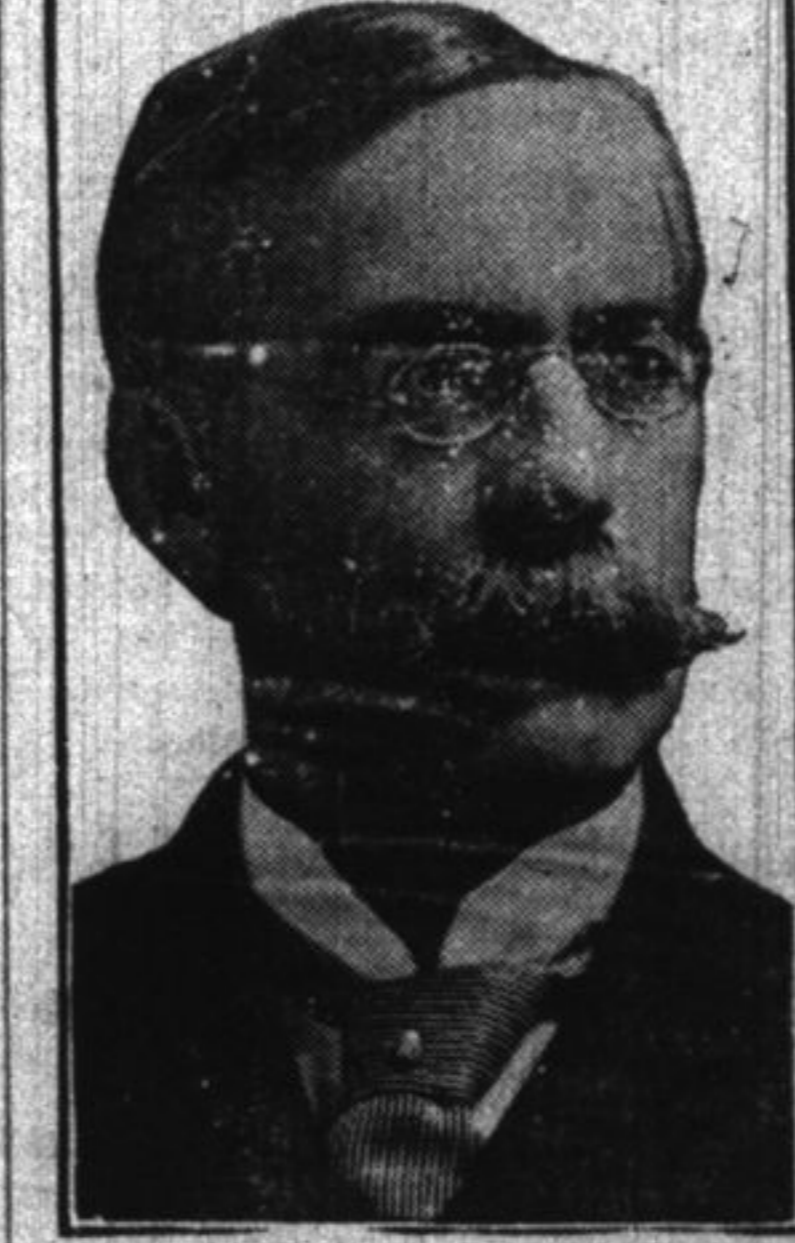

Bit of Housecleaning Done.

It was cheerfully stated that the committee has got rid of all its "bad blood" and can now go ahead in solid formation to elect President Taft. The cases were presented one at a time. None of the offenders were present and no protests were received. It was believed that all of the ousted committeemen would acquiesce in the decision.

POLICE FIGHT MOB

Street Cars at Superior, Wis., Are
Wrecked and Burned.

At Superior, Wis., Friday a mob of 5,000 strike sympathizers destroyed thousands of dollars of street railway property and seriously injured many nonunion street car employes.

The first attack on street cars resulted in the burning of six cars and a battle with the police, in which more than thirty persons were injured, none, it is thought, fatally.

Following this battle the mob stormed the company's barn on Fourth and Ogden avenue.

The police were powerless. Sheriff Edward McKinnon was ordered to swear in deputies to preserve order and save human life.

Previous to this time every policeman on the force, specials and regulars, was enlisted on night service, but thousands of men and boys paraded the streets in wildest disorder.
