A LECTURE ON CHRISTIAN SCIENCE

Prof. Hermann S. Herring, C. S. B., Member of the Board of Lectureship of the Mother Church

COMPLETE REPORT OF LECTURE

As given by Prof. Herring in The First Church of Christ, Scientist, Highland Park, Thursday, October 17

"The one question of vital interest to humanity is how to obtain health and happiness. Indeed, the universal desire and endeavor of mankind is to be healed. When we note the misery and wretchedness that still exist all about us, the distress and defeat pertaining to every walk and vocation of life, and the prevalent bondage to evil and materiality, it is very evident that humanity's need calls for something better than it has hitherto known, namely, that effectual apprehension of Scripture teaching which promises deliverance from disease and salvation from sin.

The Promise of Salvation.
"So important was this in the mind of our blessed Saviour Christ Jesus twenty centuries ago that he willingly endured the untold agonies of Gethsemane and the cross in fulfilling his mission of bringing deliverance, this salvation, to mankind. The Bible declares that Christ Jesus came to destroy the works of the devil, and the record of his life shows that he did destroy sin, disease, and death. that he taught his followers so to do, saying, 'He that believeth on me the works that I do shall he do, also,' and that for about three centuries they demonstrated the truth of their master's teachings by doing these wonderful works.

"The Bible declares that he came to bring full salvation from all evil. If we think for a moment what this world would be with this mission of our Saviour fulfilled in it, with all men living in accordance with his teachings and demonstrating them, and thus with all sin and misery removed from human experience (which would be an inevitable result), we would realize the great blessing such a salvation would bring, and how far short we have come in availing ourselves of the opportunities the Master labored and suffered to secure us; then we would have a full salvation here and now, even as the Bible declares, 'Behold, now is the day of salvation.' There must be some cause for this failure, this misunderstanding of the Bible teachings, and general neglect thereof, and we shall be interested to learn what Christian Science has to offer towards a solution of this great problem.

Salvation to be Worked Out.
"Christians believe that salvation is obtained through Christ. Salvation, according to Smith's Bible Dictionary, means 'Deliverance from temporal evils and earthly destruction, in other words, deliverance from sin, disease, and death, all evil.' In order to be effective, salvation must have its underlying principle and its sciences, its exact demonstrable knowledge. The science of salvation through Christ must therefore mean that demonstrable knowledge of divine Principle, the Christ Truth, which affords deliverance from all evil.

"St. Paul enjoins upon us that we work out our own salvation, which means that we overcome evil. This question of the mastery of evil involves the understanding of several essential points. One is the nature and character of evil, and that we may analyze evil intelligently, let us first review briefly what Christian Science teaches regarding the essential nature and character of good or God, of that which is real and true about God, man, and the universe.

Definition of God.
"Christian Science declares that God is what the Bible defines Him to be, namely, the Infinite One. Says Moses, 'Hear, O Israel, the Lord our God is one Lord,' 'there is none beside Him.' Says St. Paul, 'One God and Father of all, who is above all, and through all, and in you all.' Says the Psalmist, 'Whose understanding is infinite.'

"God, being infinite, must partake of the nature and character of infinity, of aliveness. We can know no limitation of any kind, whether it be of time, space, knowledge, or power. He is therefore omnipresent, everywhere present, the infinite, the absolute, the only real presence.

"He is also omnipotent, as the Creator declares, 'The Lord God omnipotent reigneth.' Omnipotent means the one infinite power, and hence the only real power.

"He is omniscient, the all-knowing, the infinite intelligence, and hence the only real consciousness.
"The Bible also declares that God is Spirit. He is the one infinite and only real Spirit. He is the one infinite and only real Creator, the divine creative Principle, the basis, foundation, cause, origin, of all real life, action, growth, development, and power.

"Hence He is the one infinite and only real Life or Principle of being. He is the self-existing, self-creating, self-maintaining Truth, the great I AM, the being 'which is, and which was, and which is to come.'

EDITOR, HIGHLAND PARK PRESS, Highland Park, Illinois.

Dear Sir:
Your excellent paper is a necessity in Highland Park and should be well supported by Highland Park people. I appreciate the valuable publicity you are giving each week to the Highland Park Club and its affairs, and co-operating in every way for mutual advantage.
As you are kind enough to publish our entertainment program and other club news right along, I feel it would benefit every member of the Highland Park Club to be on your subscription list and wish you success in this direction.
Yours sincerely,
R. C. JACOBSEN,
President of Highland Park Club.

October 17, 1912.

WILL RECOMMEND DELIVERY EXTENSION

Mail Service for Northeast End
Postmaster Fletcher Receives Word to Investigate Needs of Petitioners

Those property holders, living north of Bloom Street and east of the tracks, who recently petitioned the Postoffice Department, through Congressman Foss, for an extension of the carrier service to their district will probably have their request granted. Postmaster Fletcher will send a favorable reply to the following letter in which he will request that an inspector be sent here at the earliest possible moment to investigate conditions and it is believed that his report cannot be anything but favorable:
Postmaster,
Highland Park, Illinois.

The enclosed letter from Hon. George E. Foss with which he transmitted a petition requesting the extension of city delivery service to certain territory now served is referred to you for investigation and report as to what the area and population are, whether the territory is adjacent to that now served, whether it is provided with good contiguous sidewalks, cross walks, street lights, street signs, house numbers and whether the work can be performed by the carriers now employed; if not state the amount of time that would be required to perform the work.
Kindly return the enclosure with your reply.

Respectfully,
E. T. BUSHNELL,
Acting First Assisting Postmaster General.

PRESBYTERIAN CHURCH DEDICATION

Invitations Issued for Services to Begin Next Friday

Following is the program for the dedicatory services of the new Presbyterian Church building, a more extended notice of which will appear in next week's issue:
Friday, November 1st, 8 to 10 p. m., reception and housewarming.
Sunday, November 3rd, 10:30 a. m., dedication of church.
Sunday, November 3rd, 3:30 p. m., Bible School Dedicatory Service and Bible recognition, Baptism of Children.
Sunday, November 3rd, 8 p. m., Organ Dedication and Inaugural Recital, Allen W. Bogen, assisted by the Choir.
Wednesday, November 6th, 8 p. m., Homecoming and Reunion Service at which time the early history of the church will be reviewed.
Thursday, November 7th, 8 p. m., Service of Christian Missions.
Friday, November 8th, 8 p. m., Service of Young People's Societies.
Sunday, November 10th, 11 a. m., Sacrament of the Lord's Supper and Reception of Members.
Sunday, November 10th, 7:30 p. m., Musical Service, given by the Choir and assistant artists.

MANY BUY HOME COOKED ARTICLES
Y. W. C. A. Directors open Woman's Exchange to be Conducted each Saturday

Last Saturday was the first day of the "home cooked foodstuffs sale" which has been inaugurated by the directors of the Y. W. C. A. and the ladies in charge found no difficulty in disposing of all the articles offered. The sale will be conducted each Saturday morning beginning at ten o'clock and at present the articles offered are donated to the managers and sold for the benefit of the Y. W. C. A. At an early date it is planned to conduct the sale as a Woman's Exchange and when this is done articles will be accepted and sold on a commission basis.

SUCCESS PROMISED FOR NIGHT SCHOOL

Over 100 Students Now Enrolled
Some Classes Already Filled for School Which Opens November 5. List of Courses and Instructors

The classes in arithmetic, typewriting, and domestic science for the Deerfield-Shields night school, which will open on Tuesday evening, November fifth, were filled Monday and many applicants have been put on the waiting lists. In the other classes, a complete list of which we again publish, there is room for additional students and it may be, through students dropping out because of inability to carry on the work in addition to their regular duties, there will be opportunities for those whose names are on the waiting list.
1. Arithmetic, a special business course for contractors and young business men in whatever capacity. The course includes some commercial law, especially that relating to contracts. Mr. A. Williams, instructor.
2. Booking, including penmanship and the science of accounts. Mr. E. H. Staehling, instructor.
3. Typewriting. Mr. E. H. Staehling.
4. Domestic Science, with the emphasis on cooking and dressmaking. Miss Henrietta Pyre, instructor.
5. Mechanical drawing, both machine and architectural with practice in making and reading plans and working drawings. Mr. R. Schneider, instructor.
6. Practical English, the correction of common blunders in spelling and grammar along with instruction and practice in business correspondence. Miss Adah Grandy, instructor.
7. Scientific agriculture, instruction and experimentation in soils, crops, fertilizers, seeds, dairying, tree-culture, etc., along with a study of the opportunities now offered in this line of work. Mr. Wade McNutt, instructor.
8. Mechanics and electricity, practical laws and formulas of machines and engines; uses of magnetism, static and current electricity as applied in cells, magnets, dynamos, electric wiring, lighting, heating and power. Mr. H. R. Smith, instructor.

The above courses are offered free of charge.
The classes will meet from 7:45 to 9:45 on Tuesday and Friday evenings for fourteen weeks with an intermission of two weeks before and one week after Christmas. Each student will choose one subject and spend the whole time on it.
Two culture studies, French and German conversation, will also be offered for a fee of \$10.00 each, in case there is a demand for them. No course will be given unless at least 12 persons enter it. The school will probably not start with less than a hundred students. Young people of high school age and adults at any age are admitted.

HAS UNIQUE WINDOW DISPLAY

Local Office of Public Service Company Competing for Cup

All the salesrooms of the Public Service Company are, in hot competition for a silver cup which the company offers for the best window display made between October 15 and 31, and the local office at Elm Place and St. Johns Avenue has a unique display, arranged by the employees under the direction of Storekeeper C. D. Hughes. With a background of autumn decorations in one window there is a display of heating appliances while the other contains, as its central object, an electric meter, leading into this meter from one side is a huge company pennant representing the company's product as it enters the home. From the opposite side long streamers of ribbon lead to the many electrical appliances with which the home may be equipped.

NEWS NOTES OF NEARBY CITIES

Items of Interest Concerning our Neighbors as Printed in Various Local Papers

PASS "DRY ZONE" RESOLUTION

Bowen Country Club at Waukegan gets Swimming Pool. Lake County gets Prize for Farm Exhibit

Another "Dry Zone" Resolution
The Illinois State Baptist Convention, assembled in their sixty-eighth annual session in Quincy passed a resolution, requesting President Taft and also the state legislature to use their influence for the extension of the dry limit, from one and one-eighth to five miles, which would mean the abolition of the saloon, from Chicago to the state line.

WINS SECOND PRIZE IN COUNTY EXHIBITS

Former Supervisor W. E. Miller of Libertyville, who this year took a farm produce exhibit from Lake County to the State fair at Springfield was awarded second prize in "Display of Farm Products from Northern Horticultural Division," department, the largest in the entire exhibit. Mr. Miller secured seven firsts, four seconds, three thirds on single exhibits. In all his prizes were worth about \$200.00.

COUNTRY CLUB GETS SWIMMING POOL

A reception and tea was given by Miss Jane Addams and the residents of Hull House of Chicago at the Bowen Country Club on North Sheridan Road in Waukegan last Saturday afternoon. The occasion marked the presentation to the club of a swimming pool given by the Misses Evelyn in memory of their father, who for many years, was a trustee of Hull House. The country club which consists of several cottages, playgrounds and now a swimming pool, was the gift of Mrs. Joseph T. Bowen as a memorial to her late husband. It is used by the members of Hull House and any persons whom they wish to invite as a place to which they can go during the summer for an outing. It was opened last summer and many children enjoyed a few weeks recreation there.

NEARBY LOCALS

Fire of unknown origin destroyed the beautiful summer home owned by Dr. Krueger at Meyers Bay just off Pistakee Bay during the night of Saturday, October fifth.

Mr. Edward L. Ryerson has sold his residence on University Ave., Lake Forest to Mr. Geo. B. Thorn. The consideration said to have been paid in the deal is \$700,000.

The largest catch of fish made by Waukegan fisherman in five years was reported Thursday. 3,500 pounds of perch and sicos were caught in two small nets.

Waukegan's city solons, one and all are in favor of assessing a wheel tax. An ordinance of this nature will be drafted this month. The fees collected by the tax will be used to improve the city roads.
Supervisor Henry Eger of Libertyville, was elected vice president of the state organization of supervisors and county clerks in convention at Beardstown last week. County clerk Hendee was appointed to serve on several committees.

Miss Emma Shumway was re-elected president of the Jane McAlister Hospital Association for the ensuing year at the annual meeting held Thursday morning.

WILL MAKE COUNTY GEOGRAPHY

Teachers to Compile Statistics for Work to be Published

A booklet giving the Geography, History and Civics of Lake County will this year be made by the teachers of the county from a topical outline which has been sent to them. Every two or three teachers will be assigned one topic and several of these will be heard at each teachers' meeting during the year and the best points of each paper will be incorporated into the book. In this way it is believed that a complete, comprehensive idea of Lake County will be secured which will treat all its industries, artificial improvements as well as its physiography. County Superintendent of Schools T. S. Simpson states that this work will take him and the teachers a whole year to complete and that next year when school opens, every pupil and teacher in the county will be supplied with one of these booklets which will be invaluable for the study of local conditions.—Waukegan Sun.

ONE DAY IS LEFT FOR REGISTRATION

BOOKS ARE OPEN FOR INSPECTION

Tuesday, October 29, is last day and Women as well as Men should see that Names are on List

Tuesday, October 29, is the last day for registration and voters should see that their names are enrolled on the poll lists. In order that voters may ascertain whether they have been enrolled the lists are required by law to be kept in a conspicuous place from the first date of registration, three weeks preceding, to the second day one week preceding the date of a state election. Complying with this law the judges in each precinct have hung a copy of their lists in the polling place for their precinct and it is the duty of the voters to learn for themselves whether or not their names are correctly entered. The first precinct comprises that portion of Deerfield township from Vine Avenue on the west and Moraine Road on the east of the railway to the government reservation and between the lake and the township line. The polling place is in the Highwood city hall. The second precinct lies between Moraine Road and the county line, the lake and railway. The polling place is in the McGuire and Orr building on East Central Avenue. The third precinct is between Vine Avenue, the county line, the railway and the township line. The polling place is in the fire station.

WOMEN MUST REGISTER

Those women who wish to vote for Trustees of the University of Illinois at this election or who may desire to vote at any school election, for members of the Board of Education in their district, for trustees and members of the Deerfield-Shields Board and for any proposition for the issuance of school bonds, must be properly registered and should see that their names are properly enrolled at this time. The following paragraph from the Illinois Election Laws covers the question:
9. WOMEN MAY VOTE FOR SCHOOL OFFICERS. [332, Ch. 46, R. S.] Any woman of the age of 21 years and upwards, belonging to either of the classes mentioned in article VII of the Constitution of the State of Illinois, who shall have resided in this State one year, in the county 90 days, and in the election district 30 days preceding any election held for the purpose of choosing any officer of schools under the general or special school laws of this State, shall be entitled to vote at such election in the school district of which she shall at the time have been for thirty days a resident: Provided any woman so desirous of voting at any such election shall have been registered in the same manner as is provided for the registration of male voters.

MAY GET CONTAGIOUS HOSPITAL

J. A. Patten Offers \$75,000 Plant if North Shore Finds \$100,000 to Endow

James A. Patten has offered to build a contagious hospital for Evanston and the North Shore to cost from \$75,000 to \$100,000, but the Evanston Hospital Association has heretofore declined to accept the gift on the ground that it could not support it. Finally the association said that if an endowment fund of \$100,000 could be raised they would accept the hospital and guarantee its support.
Last week a meeting was held at the Evanston Commercial rooms of citizens of Evanston and the North Shore towns, and a campaign was inaugurated to raise this fund of \$100,000. A thermometer was placed on Fountain Square, Evanston marked to 100,000 degrees. Every dollar raised will send the thermometer up one degree and when the mercury rises to the top the new hospital will be guaranteed.
Ten teams of ten men each will canvass Evanston for funds and each of the North Shore towns will have one team of ten men to canvass their particular towns. These teams will meet nightly beginning Monday and count up subscriptions and then go and put up the temperature marks on the thermometer.
After only four days work the thermometer registers \$30,500.

WILL OPEN NEW MEAT MARKET

Leo Delhays and T. H. Gail Ready for business Saturday

The north end will soon have a new meat market which will be located in the Moraine grocery on Green Bay Road and will be open for business Saturday. Leo Delhays and T. H. Gail are the proprietors and the firm will be known as the North Shore Meat Company.

POLITICAL NEWS OF NORTH SHORE

Many Straw Votes Indicate that North Shore Towns will give Roosevelt big Majority November 5

PROGRESSIVE RALLY TUESDAY

Republican Rally Attended by big Crowd to Hear Congressmen Foss and Scott

Many Attend Republican Rally

An audience which filled Goldberg's hall to its capacity attended the Republican rally Monday night and listened to speeches by Congressman Foss and Congressman Scott of Kansas, and local party leaders. Mr. Foss confined his remarks principally to an exposition of what the Republican party has accomplished during the present administration and his own support of bills of national importance. It was noticeable that all the speakers with the exception of Attorney G. A. Mason refrained from any extended mention of the Progressives. Mr. Mason was exceptionally bitter in his attack on the new party, its platform and some of its candidates.

Progressives Call Local Meeting

Next Tuesday evening in Goldberg's hall the local voters with Progressive tendencies, or all of them who can crowd into the hall, will meet to hear replies to the arguments set forth at the Republican Rally by Congressman Foss and Mr. Mason. This will be the first opportunity for the local voters to meet Charles M. Thomson, Progressive candidate for Congress from this district. Mr. Munro, local candidate for state representative, and Mr. Thomas will be the speakers of the evening.

Mr. Munro's Speaking Dates

F. S. Munro's candidacy has so rapidly grown in popularity that his supporters and many of his opponents are confident that he will be one of the representatives from this district at the next session of the legislature. Mr. Munro is rapidly covering the district in a speech-making tour and everywhere finds the voters ready to listen to Progressive arguments. Last night he spoke in McHenry, tonight he will be the principal speaker at Marango and other dates are as follows: Friday, Capron; Saturday, Woodstock; Monday, Belvidere; Tuesday, Highland Park; Wednesday, Harvard.

Governor Deneen in Waukegan

Governor Deneen was in Waukegan Tuesday morning and held a reception at the court house but the plan of making an auto tour through the county was abandoned because of the rain. The governor promised to come again the latter part of next week providing the state committee can allow him a day and he will then make the trip planned by the local committee.

Gross Point Democrats for T. R.

Gross Point, which has always been a Democratic stronghold, is a strong Roosevelt community. There are 320 voters in the precinct, and the Progressive club there has a membership of 180.

Alderman B. J. Stevens entertained

Congressmen Foss and Clark and the men who had charge of the Republican Rally Monday night at a dinner at the Moraine preceding the meeting.

In a recent Evanston straw vote, taken as three places, Roosevelt was the choice of 123 of the 192 voters expressing a preference. Of the balance Wilson got 52 and Taft 17.

\$135 in amounts ranging from 10 cents to \$10 was taken in at the Progressive store in Evanston last week.

In the Waukegan Sun post card poll 394 of the 577 cards sent out were returned with the following result: Roosevelt 232, Wilson 90, Taft 50, Debs 20, Chafin 2.

HIGH SCHOOL BOND ISSUE FAILS

Evanston Casts only 224 Votes on Proposal to spend \$250,000

A big majority of the 224 votes cast at Evanston last week were against the proposed bond issue of \$250,000 for the purpose of erecting a new high school building. The Evanston Press states that only 28 parents who have children in the high school showed enough interest in the proposition to get out and vote even though a vast amount of publicity had been given the project by the local papers.
