Why Wife Waited.
A certain married man who boasts to the boys that his wife never sits up for him slipped out for a cigar the other evening after supper and failed to notice that his wife had her party gown on. When he softly tiptoed into the house at 2 a. m. he was slightly surprised to see a dewy eyed lady trip down the stairway, turn her back to him and tearfully say:
"There are two books I just couldn't reach; won't you unfasten them so I can go to bed?"
Fortunately he could and did.—Chi.

The Average Man.
A foreign visitor in an interview in New York told the truth about the average man.
"Your country," he said, "is made up, like mine, of average men. The average man," he added, "is a man who thinks himself immeasurably above the average."—Washington Star.

Malicious.
Gladys—I refused Fred two weeks ago, and he has been drinking heavily since. Ethel—Isn't it about time he stopped celebrating?

GENIUS AND VANITY.
Schopenhauer Was Not a Bit Afraid to Praise Himself Out Loud.
Schopenhauer, the great German philosopher, afforded one of the most remarkable examples of self complacency that has ever been known. His naive eulogisms on his own productions are almost beyond belief. In writing to his publishers of his work he says:
"Its worth and importance are so great that I do not venture to express it even toward you because you could not believe me," and he proceeds to quote a review "which speaks of me with the highest praise as the greatest philosopher of the age, which is really saying much less than the good man thinks."
"Sir," he said to an unoffending stranger who watched him across a table d'hôte where he acted the part of the local "lion" habitually—"sir, you are evidently astonished at my appetite. True, I eat three times as much as you, but then I have three times as much mind."
Auerbach, the German novelist, also had a great appreciation of his own powers and work, and many stories are told of the obtrusive way in which he displayed his vanity. A German writer says of him: "Every year Auerbach visits three or four fashionable watering places, at each of which the following episode occurs, at least thirty times. The novelist indulges in small talk with the little children of the natives and invariably ends the conversation thus: 'Knowest thou who has been talking with thee? Behold Auerbach! Tell that at home!'"

GRIT OF A SHARPSHOOTER.
Sergeant Halliwell's Feat at the Siege of Lucknow.
During the siege of Lucknow in the Indian mutiny there was afforded what was probably the most notable instance of the record in war of a crack shot.
The rebels were endeavoring to mount two eighteen-pounders, which they had hauled up to the flat roof of one of the palaces surrounding the residency, and it was necessary to prevent this being done, or they would have been able to pour down a heavy fire on the defenders. Sergeant Halliwell was chosen for this duty. He was a crack shot of the Thirty-second foot.
Being given the best rifle that could be found his orders were to prevent the guns being mounted. He took up his position behind some battered down masonry where there was only cover for him to lie at full length. He remained in that position, it is said, for several days, not being able to stand, inasmuch as that would have resulted in instant death. His only change was to roll over from his back to his stomach. His eyes were ever kept on the dismantled guns, and whenever the

Sepoys attempted to mount them an unerring rifle played havoc among them and prevented their object being accomplished. Food was brought to him at night by men who crawled to his position.
After some time a sortie was made, and the Sepoys were defeated. For this brave work Sergeant Halliwell received the Victoria cross.—Harper's Weekly.

Seven in the Bible.
The number seven plays a prominent part in events in the Bible. The creation took six days, and on the seventh there was rest. On the seventh day of the seventh month a holy observance was ordained, and the Israelites feasted seven days and rested seven days. Noah had seven days' warning of the flood, and the seven years of plenty were foretold in Pharaoh's dream by seven fat beasts, as were the seven lean years by seven lean beasts. We speak of the seven heavens, and the seventh son was supposed to be endowed with pre-eminence wisdom. In short, there is no other number which enters into the Bible so often as seven. No doubt the wide popularity of the number and the superstitious which are connected with it came from its wide use in the Bible.

Tacking Explained.
"What do people mean when they talk about tacking?" asked Bobby, who had listened to a detailed account of his sister's first experience in a sail-boat, but in considerable confusion of mind.
"Oh, you'll know when you're a little bit older," said his sister, but the small round face wore an expression of injury, and she had to explain further.
"Why, it's just tacking halfway round," she said, with slight hesitation, "and then—and then you sail on the bias."
Old Croakyno—I think we'd better have the passage and staircase repaired while I'm laid up, Mrs. Grimcoe.
Mrs. G. (his housekeeper)—"Lor', sir, 'adn't yer better wait and see 'ow ye goes on first? Them coffins do make such work with staircase wall papers."—London Telegraph.

Hard to Please.
"Why did she divorce her first husband?"
"He couldn't keep his money."
"And why is she suing her present husband for divorce?"
"He's such a tightwad."—Houston Post.

Two Good Ideas.
Scott—It's a good idea when angry to count ten before you speak. Mott—True; also when "tonched" to count a thousand before you lead.—Boston Transcript.

Discontent is the want of self reliance. It is infirmity of will.—Emerson.
