The day of the round stiff flower bed in the middle of the lawn is rapidly drawing to a close, we used to make a specialty of cutting out half moons, maltese crosses and heart shaped beds wherever there was an opening and sticking them full of Verbenas, Brick Red Geraniums and a Dusty Miller Border-The front lawn was dotted with all sorts of trees and a picket fence put the finish to the place, but all of this. had to give way to the open lawn and the irregular shrub border and there are hardly any grounds where such an arrangement can't be carried out and thereby make the place more attractive. Don't say we are high priced maybe you don't know that we can furnish almost any flowering shrub at 40c each, 3 feet high and over, plant flowering perennials along the front of the shrub border, we have extra fine plants of hardy Phlox, Coreopsis, Columbines, Shasta Daisies and others at \$1.00 per 12---Yes, we are awfully busy, 46 on the pay roll, we have men all over town busy planting. You will be talking about planting Phlox next July but that will be too late---springtime is planting time---get at it---Remember ours is a growing business.

SACRAMENTO, CAL. - The administration leaders in the state legislature decided to draft an anti-alien land law which will bar out all Asiatics. This action is a direct slap at Secretary of State Bryan, who requested the governor last week not to discriminate against the Japanese. The new bill will also be especially obnoxious to the Japanese because it classes them with the Chinese Asiatics, when they claim to be Aryans, not Mongolians. The new bill will be substituted for the Thompson-Birdsall bill in the senate.

WASHINGTON - The abrogation of the Hay-Pauncefote treaty and the Clayton-Bulwer treaty, under which the construction of the Panania canal has been undertaken, is the object of joint resolution which Senator Chamberlain of Oregon, a Democrat, introduced in the senate. The brief debate on this radical resolution indicated that Senator O'Gorman of New York, chairman of the senate committee on interoceanic canals, is inclined to favor this resolution.

After elaborate pegotiations covering several days the two were brought together at a luncheon for the first time since the falling or at the Baltimore convention which resulted in the overthrow of the Clark boom and the nomination of Woodrow Wilson. The two clasped hands, broke bread together and issued statements.

PATERSON, N. J .- A wild mob of between 600 and 700 silk strikers and sympathizers made an attack upon an automobile police patrol wagon near River street and Fifth avenue. A shower of stones which struck the curtains of the patrol and rattled around the head of Burke, the chauffeur, was followed by a revolver shot, the bullet of which cut the curtains and passed between the heads of two

TERRE HAUTE, IND .-- About a ton of live Wabash river fish was brought town by boatmen from down stream. The men said they got the fish on the Illinois side and did not violate the Indiana law. Buffalo and carp brought 8 cents a pound; channel cat, 15 cents, and jack salmon and bass, higher prices. Some of the carp and buffalo weighed twentyfive pounds each.

WALL STREET BANKS.

As a Rule They Make Loans on Per Cent Margin

Most Wall street banks lushet on having a twenty point margin behind loan. That means that mal ties. Most brokerage bouses do not wait for such a summons, but send the necessary collateral to the bank as soon as they see that the price of their securities has declined.

But the banks are guided always by the character and the financial standing of each borrower. Each bank has a list of favorite borrowers who can secure whatever money they need in times of stress or in times of calm. The loan clerks know who the favorites are and show them every courtesy. It means a good deal for a Stock Exchange house to get on the "favored list" of a Wall-street bank.

Some borrowers, in order to stand well with a bank, never complain in a school. On that afternoon classloans. They go on the theory that it is foolish to dispute a rate with a bank when the difference between 2 per cent and 21/2 means only \$1.30 a day on the interest charge for a \$100,000 loan.-New York Post.

What a Two Dollar Bill of the Year 1774 Looked Like.

One of the few pieces of continents crip now in existence is owned by former teacher at Shortridge high school. It was given to her at Christmas time in 1868 by a fellow teacher. The piece measures about 5% by 2% inches and is framed to show both sides. Within an intriente leuf and branch border design, on the from side, is printed:

"This indeuted bill of \$2 shall entitle the bearer thereof to receive bills of exchange, payable in London, or gold and silver, at the rate of 4s. 6d. sterling per dollar for the said bill, cording to the directions of so act of assembly of Maryland. Dated in An napolis, this 10th day of April anno

In an upper corner of the reverse side is a picture, about an inch and a half square, representing the British crown, at each side of which is a tiny picture of a man. One of the men represented as bolding a spade, while from the hand of the other dangles a fish on a string. At each end on this death to counterfest," and at the bot tom are the names of the printers, A. C. and F. Green.-Indianapolis News.
