MRS. SWAIN SAYS:
"During all the 33 YEARS that I have kept house I have never used a more satisfactory furniture polish and floor cleaner than **NU-FINISH**. Accept my highest recommendations for same."

NU-FINISH
is a marvelous dusting-cleaning-polishing liquid. With it you just dust in the usual way—but what a difference! No dust flying in the room to settle down again. Every speck is taken up and taken out—not just stirred up. And, at the same time, with no extra work, your furniture, woodwork and hardwood floors are cleaned and polished. Try a 25c bottle.

DRAINAGE CONGRESS SEEKS ACTION

Local man on Committee to meet President next week.

Mr. Frank B. Knight, of this city, a member of the Board of Governors of the National Drainage Congress, and Executive Committeeman for Illinois, has been appointed a member of the General Educational Committee which will be received by President Wilson, at Washington. While in Washington the committee will present to the United States Congress the resolutions adopted at St. Louis, Mo., April 12, by the Third National Drainage Congress, urging a national policy of flood protection and swamp land reclamation for the public health and general welfare. The resolution urged the creation of some national body to plan and put into effect such a national policy, and declared it to be the belief of the Drainage Congress that a Department of Public Works is the proper body for this purpose.

Before, during, and after the Washington meeting the General Educational Committee will endeavor to convince members of congress that their constituents favor the national policy to which the Drainage Congress is committed.

The National Drainage Congress, organized to promote the public health and the public welfare, endorses no single project, however large or meritorious, but stands for a national policy. It bases its request for government supervision of flood protection and swamp land reclamation work upon the Constitution of the United States which states: "Article 1, Section 8: The Congress shall have power to levy and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defence and general welfare of the United States."

The Drainage Congress declares that "common defence" means defence against internal enemies of nature which cause disease, death, and loss of property, as much as it means defence against enemies of human kind which cause no other distress than disease, death, and loss of property.

Your suits should be pressed and kept in repair by The Reliable Laundry's Tailors.

How closely do you observe things and how accurately can you describe what you have seen? Do you know how many steps there are leading to your front door?
Accurate observation is a habit to be cultivated and once acquired, it becomes a most valuable accomplishment.
Have you noticed the large number of attractive residences in course of erection along the North Shore? Do you know that on the majority of these, **small mortgages** are made to complete them and that these mortgages are **choice and safe investments** and that they may be obtained most advantageously of us?
