

HOLLY FOR XMAS

You will celebrate Xmas more than ever this year—Everybody will—the kids come first, they want a Tree, it hardly seems like Xmas without one—what of it if the needles do fall, why worry about so small a matter—then there is the Holly we forgot about just who it was first introduced Holly for decorating the Home on Xmas with, but what a splendid idea it was, what better could we use to make the rooms festive than a few sprays of Green Holly full of Berries? Or the Holly Wreath in the window?

When we started into business 18 years ago in Highland Park we made 26 Wreaths in all and thought that was a whole lot—well, we made, sold and delivered 733 of them Xmas week 1912 and it's going to be over one thousand this year, and we still have on our books the same Customers we served 18 years ago. We get our Holly direct from Delaware, fresh picked selected stock the best money can buy—over 260 of these Wreaths we sent out of town last year, they went everywhere and brought with them a true spirit of Xmas which means cheerfulness and good will, tied with a Holly red ribbon as suitable Xmas gift as you would want and they can be made up from 35 cents up to 5 dollars just as you think best—why should you think of Wreaths or the loose Holly laying about in front of the Grocery Store or the Meat Market—we don't handle Farina nor Sausage, but there isn't anything in the line of Decorative Greens, Xmas trees in pots, needle pines, evergreen wreathings we don't carry and only the best—don't think about the price, it is so little that every Home can afford to make use of them—only when you are surrounded by the proper environments can you celebrate Yule Tide as it ought to be—put that large Wreath on the front door and the little ones in the windows, place the loose sprays of Holly about the rooms, around the pictures and the walls, have a center piece of red berries and Holly on the dining table and the Mistletoe in the door way, you can't over do it, get yourself into a state of happiness and joy and make everyone around you feel the same way and remember that there is nothing more uncertain than the length of your stay here and only by making the most out of this coming Xmas do you make the best of that stay and on the other end of telephone 85 we are waiting to help you do it.

NEW CONGRESS IN

Steps from Extraordinary into Regular Session.

USUAL INTEREST IS ABSENT

Status of Legislation Shows Little Variation from What it Was When Senate and House Adjourned Saturday — Representative Underwood to Continue As House Leader.
WASHINGTON, D. C.—Only a few minutes separated the first, or extraordinary, session from the second, or regular, session of the Sixty-third congress, which opened at noon.
The regular session was ushered in by the formal proclamation of Vice President Marshall in the senate and Speaker Champ Clark in the house. Outside of these formalities there was little difference in the session from those that have preceded it in the special session.
The status of legislation showed little variation from what it was when the senate and house adjourned Saturday afternoon.
Usual interest is absent.
As a result the interest usually surrounding the opening of a new session of congress was absent.
This is the first time in many years that congress has stepped over from one session to another without a break in the routine of business. The senate met as usual at 10 o'clock in the morning, and after the intermission of a few minutes at noon the regular session was on in full swing, and the business of legislating went on as if it were an ordinary daily session, instead of the beginning of a new congress.
Asks \$1,108,681,777 for Expenses. Estimates call for appropriations

to run the government for the fiscal year beginning July 1 were submitted to congress by Secretary of the Treasury McAdoo. The amount asked is \$1,108,681,777. Items which appear in the estimates include improving Waukegan harbor \$10,000, improving Calumet river \$100,000, improving Indiana harbor \$25,000.
The President's Message.
In his message, delivered at a joint session of the houses of congress, President Wilson urged immediate currency legislation, devoted considerable space to the needs of the farmers and referred to the Mexican crisis, predicting the downfall of Huerta. The Sherman anti-trust law, he said, should be changed so that its exact meaning would be clearer. The president also urged the choice of presidential nominees by the direct vote of the people expressed at primaries.
President Wilson's policy toward the Philippine islands was made clear. He urged the development of the Philippines, always keeping in view the ultimate independence of the islanders. The message also urged legislation to safeguard workmen both on land and sea.
Representative Oscar W. Underwood of Alabama will remain on the job of house leader this session. It has just become known that Mr. Underwood plans to remain in the house until the expiration of his term in March, 1915.
Associated to some extent with the work of congress this session are plans for party reorganization that are now in progress there. On Dec. 16, the Republican national committee will meet in Washington for the purpose of determining whether a special national convention shall be held to minimize the influences of the south in party councils. To some extent the progressive plan of campaign in next year's election will be mapped out in Washington this winter.
OUR TARIFF IS NOT LIKED
Sir Wilfred Laurier Says It Makes Canadian Food Higher.
OTTAWA, ONT. — "Free food before dreadnaughts" was the text of a speech of Sir Wilfred Laurier, the liberal leader before a great meeting in the conservative city of Hamilton. Sir Wilfred said: "What is of immediate interest to the people of Canada is not the price of dreadnaughts. There is one thing which at this moment engages the minds of the common people from the Pacific to the Atlantic coasts. It is a far more prosaic and far more vital question. It is the question of the high cost of living."
"And we have not reached the end of the high cost of living. The cost of living will be higher in two or three months than it is today. What is the cause? The recent reductions in the American tariff."
