**Warning**

We wish to caution our customers against agents who are selling Aluminum Burner Tips and putting them into the Burners of Gas Ranges. They retard the efficiency of the Burner and their claim for them is absolutely false. The Gas Company gives these tips away Free of Charge for Illuminating purpose to any of their consumers. Should the agent call on you please phone 194.

**"JUDD"**

**M**Y WIFE tried it on me and I had to give in—washing by the old method is too much like work for yours truly. The "Judd" Electric Washing Machine is a real one—it does wash, and it does it without any undue wear and tear to the most delicate fabrics, and without any disturbance whatever to your mental and household equilibrium.

The "Judd" is the highest priced machine on the market—it has to be because it is the best. Isn't it foolish to haggle over a few dollars when you are going to get something that will give exceptional service for practically a lifetime? The higher price is a myth, anyway. In an average family the saving in wear and tear on the clothing washed in a "Judd" for one year will more than offset the difference in price of the cheaper machines, in which, as you all know, the clothing is twisted, rubbed, scraped, knotted, torn and worn by pegs and corrugated surfaces. The "Judd" is perfectly smooth inside.

I want you to prove these statements in your own home by test, without any expense or obligation to you. Drop me a card, or telephone Wilmette 499, and I'll gladly explain how. Or perhaps you can run down to Wilmette and see the exhibition.
