

THE NEW HOLIDAY

Next Sunday May the 10th will be celebrated the greatest of all Holidays, it doesn't belong only to the departed or things which have or some which are supposed to have happened years and centuries ago. Miss Anna Jarvis in 1907 gave Mother's Day to the world. The Day was intended to honor

The Best Mother Who Ever Lived

--YOUR OWN-- that's the real purpose of Mothers Day. Could there be a more beautiful thought, a greater real Holy Day for us all to join in to celebrate.

*Bright Flowers for Mothers Living
White Flowers for Mother's Memory*

From a purely Ethical stand point the making of money from such a source might seem sordid, but the Public takes a broader view of life than this and recognizes the fact that instead of such days being dedicated to mere money making they are rather themselves made possible only through the fact that money is made out of them. We are all money making people and it does not depart from the sacredness of an occasion like Mother's Day--no never--some of the good readers will be glad that Bahr calls their attention to Sunday May the 10th--decorate her room, every room, flowers every where--if you don't care about wearing flowers--do wear one next Sunday--it is being done all over the country, from coast to coast and the Progressive Florists are making people do it--join in, call up 85 let's book your order whether it is twenty five cents worth or a ten dollar box of Silver Medal Carnations, we shall be glad to fill it--remember we have correspondents all over the states ready and anxious to fill our orders received by telegraph and we guarantee that the flowers are the choicest and best or refund your money. Just think this over and see if you don't want to join in to make this the Holiday it ought to be.
