#### TRINITY CHURCH NOTES.

On last Sunday morning Bishop Anderson visited the church for the first time in three years. A year ago he was very ill and the year before Bishop Toll came. There was a large congregation to greet the Bishop and the service was a beautiful one, the music being exceptionally fine. The Bishop was much pleased with the evidences of growth and prosperity which he saw and took occasion to compliment the parish handsomely. He preached a great sermon on the place of enthusiasm in religion. Three children were baptized, Dorothy and John Gardner and Mary MacCaughy, and the following persons were confirmed: Major F. L.

Beals, Mary Carl, Lea Fearing, Evelyn Foote, Marjory Merritt, Margaret and John Merryweather, Florence Nichols and Marian Norcross. After the service the Bishop met many members of the congregation in the parish house. Altogether the day was a very happy one. On next Sunday morning the rector will preach and the full choir will sing. The parish guilds have finished their year's work and will not resume their meetings until the autumn.

WANTED—Position as assistant gardener or man around the place. Wages \$2.00 per day. Will divide time. Address "Gardener" 1705 Heyworth Building, Chicago. 12pd

##### FOR SALE SALE OF GOVERNMENT INDIAN LANDS

Almost one million acres of land that surrounds McAlester, Okla., the garden spot of the United States; good rich soil in the greatest coal gas and oil fields in the United States; located in the happy dividing line between the frigid north and torrid south, McAlester enjoys perhaps the most healthful as well as the most delightful climate in the world, just enough winter and summer to break the monotony of the delightful temperature of spring and autumn, the two seasons that can not be out classed in any latitude or altitude in any country on earth. Oklahoma autumns will cure any known disease on earth.

##### Natural Resources.

Oklahoma has more granite, marble, iron ore, vanadium steel, copper, zinc, limestone, coal, oil, gas and timber than any six states, and this land will be sold at from \$2 to \$5 per acre, no more than 160 acres to anyone. Ninety-five per cent. of the people there are ineligible on account of having secured government land. You are just required to homestead land or to make any improvement on same; you don't have to go west. I make out your application for farm, our engineers make the locations and we send you photographs of land with full descriptions of same, act as your attorney and purchasing agent, and file all papers to government, and look after leasing land for you, and turn over all money to you. We make no charge for this work. This is something that appeals to your intelligence. Don't let this opportunity pass. Call on E. L. Cooper, 234 W. Vine avenue, or telephone 956 for an appointment.

### ELECTRICITY ECONOMICAL CONVENIENT

Certainly the present-day economy in using electricity appeals to you. The improved electric lamps, for instance, which consume one-third as much current as ordinary electric lamps, and the comparatively small expense of wiring your home make for economy.

#### Let Me Wire Your Home

Enjoy the conveniences of electricity in the home. Electric light means better light. It saves your eyes and your children's eyes. Electricity can be used in many ways—you can wash, iron and clean by it, also cook by it.  
I will wire your home on short notice and will do the job without inconveniencing you in the least.

Let me give you an estimate on the cost of wiring your home. I shall be glad to.

### LENGTHEN THE LIFE OF YOUR RUGS

The dirt below the surface doesn't show. It soon destroys the fabric of a rug. A broom or carpet sweeper won't touch it. The Frantz Process will get it all, surely, quickly and easily. Weighs but nine pounds. Costs a cent an hour for current. Fully guaranteed. Price for the smallest home. Phone for free demonstration.
