Mr. and Mrs. Andrew Erickson of W. Central Ave., announce the marriage of their son John, to Miss Lucile Daniels of this city. The wedding took place Monday morning, July 20th at 7 o'clock in St. Marys Catholic church. The bride was attended by Miss Elizabeth Ralph, cousin of the groom, while another cousin, Arthur Ralph acted as bestman. Rev. Dr. O'Neill performed the ceremony. Mr. and Mrs. Erickson will be at home to their many friends, on Deerfield Ave.

Among the songs Mrs. Bishop will sing will be: "Fraxine Land," "Hiawatha's Death Song" (in the Ojibwa language), "My Little Papoose," "My Bark Canoe," and "Farewell to the Desert." Mr. and Mrs. Ewart leave September first for the Isle of Pines, where they will reside, while Mrs. Gould will return to her home in Glendale, Cal., about the first of October. The scheme for table decorations was indeed very clever, the center piece being an island, while the salad and ices were of pine apple. After toasts and speeches Mrs. Chas. Snyder, Worthy Matron, in behalf of the Chapter, presented the honored guests with sterling silver souvenir spoons.

Interest in raising the "where-with-all" to keep open the camp at Arden Shore for its nearly 500 guests, still continues, and announcement has just come of another garden party and dance at Winnetka on Friday, July 31st. It is to be held at the residence of Mr. and Mrs. Wm. G. Hibbard, Jr. from 4 until 6 in the afternoon and from 9 until 12 in the evening. Mrs. Hibbard opened her grounds in the afternoon at the special request of a number of friends who wished to see the unique planning of her garden. Since the publication in the April number of "Country Life in America" of Mr. Miller's article describing them, much interest has been shown as the gardens demonstrate what charming efforts can be had or comparatively small areas. Bridge, games for children and dancing on the modern tennis court are other attractions. Tickets at \$1.50 can be obtained from the chairman, Mrs. John Sidney Burnet, Winnetka, or at the gate. In case of rain the party will be postponed until the following day.

Mr. Clarence Noerenberg, brother of the groom, served as bestman. The immediate family were the only guests present. Rev. J. Foster Van Evera performed the ceremony, while Mrs. Raymond Hardaber of Chicago, played Mendelssohn's Wedding March. The house was most artistically decorated with foliage, cactails and gladiolas. FAVORS THE ALASKA COAL LANDS BILL
THOMSON WOULD OPEN UP TERRITORY
Believes Passage of Bill Making it Possible for Government to Grant Leaseholds in Coal Fields Would Help Other Parts

By Chas. M. Thomson

During the half dozen years following 1900, the actions of certain large and very powerful interests in this country by which they sought to get control of the immense coal deposits in Alaska, necessitated the withdrawal of practically all the remaining coal bearing public lands of that territory. This brought all development of these lands and the coal in them, proper as well as improper, to a standstill. This condition of things was of course not the end sought. These natural resources should and must be developed, but in such a way as to serve the best interests of all the people.

I have believed that the coal as well as the other natural resources of Alaska should be opened to development at once. These resources in the Alaska public lands, are owned by the people of our whole country and are safe from monopoly, waste or destruction only while so owned. While these lands should remain in Government ownership, they should be opened to use promptly, upon liberal terms, requiring immediate and reasonable development. Thus the benefit of cheap fuel will accrue to the people of Alaska and doubtless also to the people of our Pacific coast states, the settlement of extensive agricultural lands in Alaska will be hastened and the just and wise development of Alaskan resources will take the place of private monopoly.

The bill known as the Alaska Coal Leasing Bill, which has been favorably reported by the Committee on Public Lands and is now pending in the House, may be said to be a companion bill to the Alaska railroad bill recently passed by Congress. Proper transportation facilities are essential to the development of the Alaska coal fields and the shipment of the product of these mines would seem to be necessary for the successful and profitable operation of these transportation lines. In providing for the construction of a railroad in Alaska by the Government, we have struck from that Territory, the shackles which were surely being fastened upon it by those who were acquiring a monopoly of the terminal facilities and the railroad lines. By the withdrawal of the unentered coal lands of Alaska in 1906, the fraud by which many sought to evade the laws and take to themselves that to which they had no right, was stopped. But to continue that withdrawal has been an act of cruelty to the people of Alaska and an act of injustice to ourselves. This bill will open up these lands to a wise and well regulated development through a leasing system.

There is much high grade coal in Alaska as well as vast beds of a lower grade or lignite which is suitable for domestic use.

While the Alaska coal output up to this time has been insignificant, the annual consumption in the territory is over 100,000 tons. Most of this has been taken up there from the Vancouver Island fields.

This bill provides for the leasing of Alaska's coal deposits in areas of sufficient size to warrant the installation of large and modern equipment and the mining and marketing of the coal upon the payment of a reasonable royalty, while at the same time small areas may be developed and mined without charge, for domestic uses. The leasing periods provided for in the bill are indeterminate so that lessees may be willing to expend the money necessary for the thorough equipment of a large mine. Provision is made in the bill, however, for such an adjustment of the terms and conditions of the leases at the end of 20 year periods, as may meet materially changed conditions.

The royalties provided by the bill assure the government an adequate return on these leases and the bill provides for certain rental charges based on the area leased, which are designated to insure reasonably continuous operation of the mines.

With the passage of this bill Alaska should be as assured adequate and reasonable means of developing her resources, and with the building of the railroad already provided for, that territory should experience a period of unprecedented activity and prosperity.
