

A PLEA FOR GOOD TREES

The man working under the impression that our native Oaks have been growing along the North Shore for centuries without man's attention and don't need pruning and spraying, takes surely a wrong view of things. To begin with there is hardly a tree in our vicinity older than one hundred years. What became of the millions of others? They weren't all chopped down. No, they perished, not being able to withstand our climatic conditions. It seems that an oak left to itself along the West Shore of Lake Michigan grows and thrives until it gets to be about two feet in diameter and then slowly goes back. Severe winters, too dry or wet summers, wind storms, fungus diseases, insect pests; all these are causes for the destruction of trees.

On the other hand systematic spraying to keep away caterpillars, bugs and insects, repairing mutilated bark tissues, cementing cavities in the trunk of all trees, clearing tops of all deadwood, removing superfluous growth and painting wounds with a proper pruning compound will help to preserve the trees, add to this the help of the experienced gardener who loves his work and will assist the tree to grow into a beautiful specimen and you are following modern methods in up-to-date tree culture. If you think well of your trees, look up this matter, a lot of good women and men all over the country have taken up the study of how to preserve our trees and how to encourage the planting of them. We are here to help. Fitted up with the most up-to-date sprayer, the best tools, a lot of experienced men to do what we can to have you think more of your trees and we are keeping right on until our home town has set a shining example to other municipalities in the way of beautiful trees.

Have you been thinking about planting some Shrubs, Perennials or Spring Flowering Bulbs this fall? We furnish all of these, assist you with suggestions, sketches and estimates. We depend entirely on our home trade and realize that to please you means to eventually get your neighbor as a customer. With this in mind we have built up a nice business large enough to keep us busy and you want a busy man to do your work, for there is a good reason for that. Why not go to the Phone and tell Central you would like to talk to 85—let's get together.

Next Sunday's game, which will be played at Crescent Park, will be a Sweetzer Cup contest, the Chicago Shamrocks being the attraction. This Shamrock game will not be one of those "Twilight" affairs, fans can bank on that. Nor will any of the Sweetzer games that follow.

Two Pullman porters representing different railroads met off duty and progressed from friendly gossip to heated argument. Their quarrel centered about which one worked for the better road. Their claims, figures and arguments came fast and furious. At last the tall, thin porter settled the dispute with these classic words: "Go on, nigh; we kills mo' people den you fellows tote"—Argonaut.

Making and Earning Money.
"What is the difference between making money and earning money?" asked the youth.
"Sometimes the difference is a trip to the penitentiary for counterfeiting," answered the home grown philosopher.
