

GARDEN LOVERS--READ

In no other line has there been greater progress made in regard to improved varieties as in the old garden favorite, *the Phlox*. Wonderful improvements as to size of flowers, beautiful colors as well as free flowering habits have been the result of the patient work of the Hybridizers of England, France and Germany.

Last spring the Henry A. Dreer Co. of Philadelphia send to Mr. W. C. Egan the noted Horticulturist of Highland Park a collection of 65 distinct varieties of Phlox comprising a good many hundreds of plants for the purpose of growing them on for the Annual Show of the Garden Club of Illinois. No finer show of Phlox was ever held any where, the individual flowers of some of the varieties covering a silver dollar with a good margin to their credit and in shades of the purest white and softest flesh pink to the deepest red.

We were fortunate indeed in being able to purchase at a great expense the entire collection and shall have plants for sale of this stock in a short time. This should prove once more to our patrons that we leave nothing undone to secure the latest and best in every thing for the beautifying of the Home Ground. You needn't send East for your requirements in the way of hardy plants for every thing that is good and of real value for our climatic conditions we carry and sell as reasonable as it is possible to do.

Besides all this you have the benefit of our experience in matters pertaining to Horticulture. A chat over 85 will give you any information you'd like to get--it's free, whether about your trees, the lawn, the flower border, the shrubs, the garden walks or drives, maybe a little sketch or estimate of what you want to have done, let's help you with suggestions--if we are able to assist you even if you don't buy a penny's worth we shall have your good Will and that is bound to prove of values to us--Some Day--
