The Man and His Deeds

George Edmund Foss

candidate for

Congress 10th District

Subject to the decision of the Republican Primaries

Wednesday, September 9th

George Edmund Foss first attracted public attention by a speech made at the Grant Banquet, April 27, 1894, and in August was nominated and elected to Congress. And thus began his political career.

He gave up the practice of law in order that he might devote all his time and energies to the service of the people. He has lived in Lake View for nearly twenty years, in his own home, at 711 Gordon Terrace.

In December, 1895, he took his seat in the house of Representatives and presented to Speaker Thomas B. Reed, the famous Hamilton Club Gavel. He was assigned to the committee on naval affairs, of which he held until his term expired. In 1898 he passed the famous Personnel Bill, reorganizing the personnel of the Navy, and in the same year, at his own expense, visited and made a study of the Navies of England and of Europe in order to better fit him for his service in Congress.

No Congressman has ever worked more faithfully and loyally for the interest of his District and nation than Mr. Foss, and the fruit of his labor can be seen on every hand. He secured appropriations to the amount of \$100,000 for the Marine Hospital situated in Lake View, and he has made this the most attractive and best hospital in the United States Marine Hospital Service. He secured a Public Building for Evanston, costing \$90,000 and an addition thereto of \$50,000.

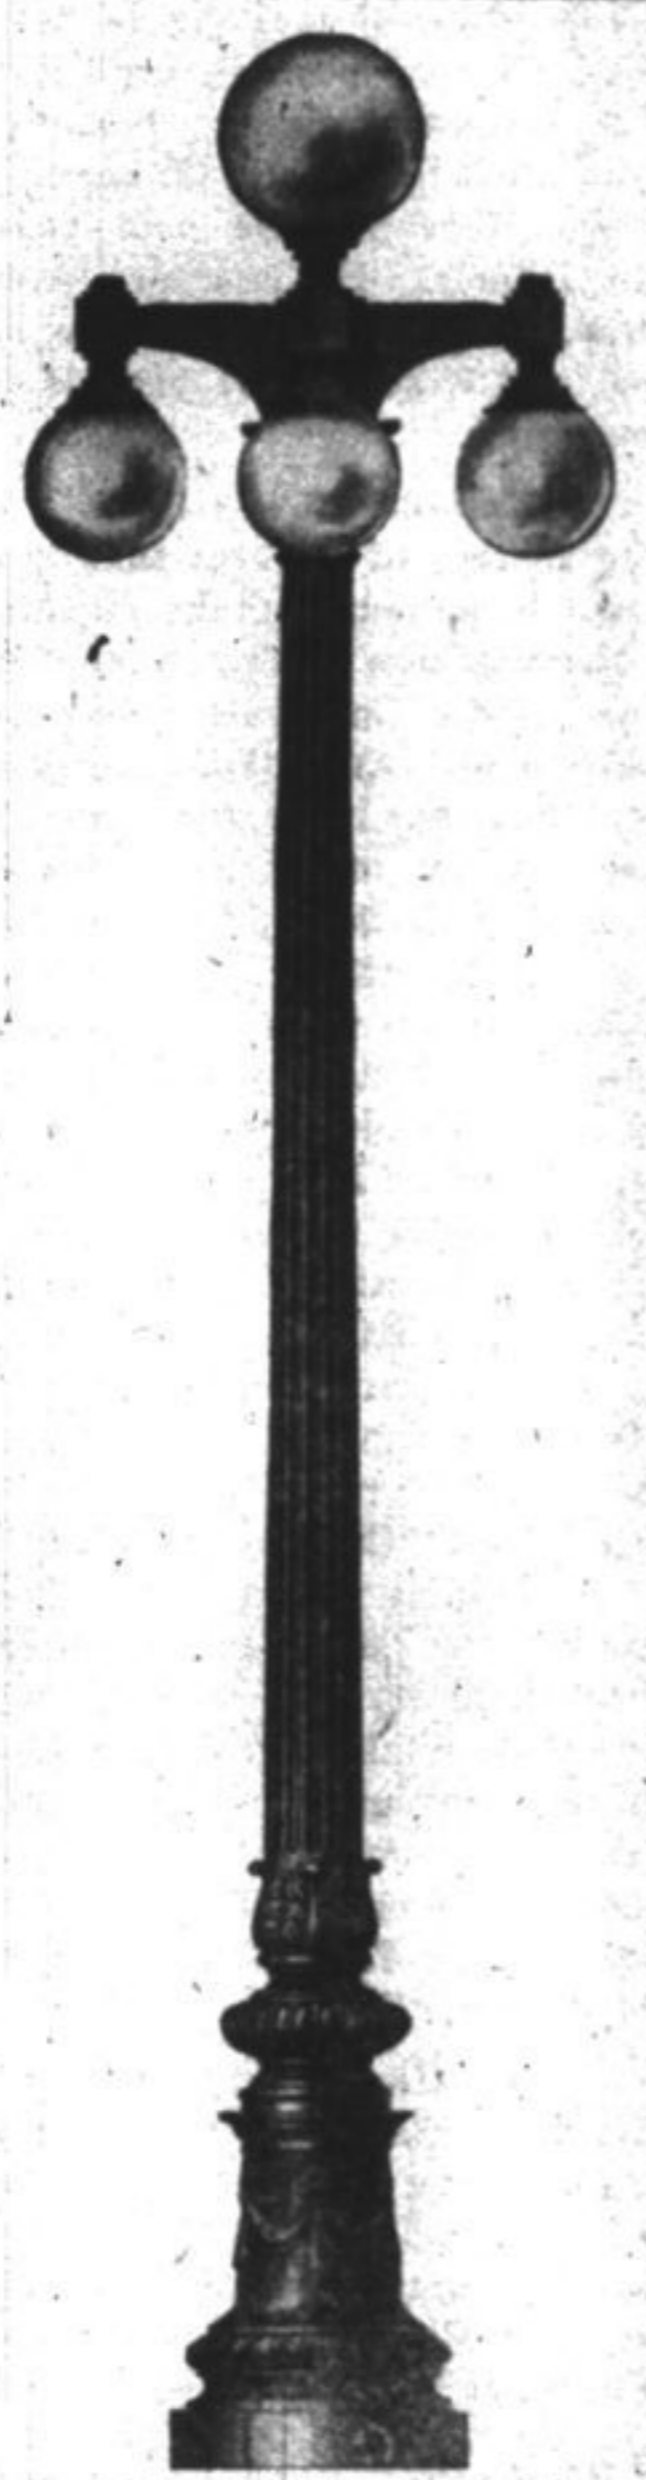

He secured a Public Building for Waukegan costing \$95,000, which is now in use. He assisted in securing appropriations to the amount of nearly \$500,000, for improvements to the harbor of Waukegan. He obtained for the Illinois Naval Militia, the U. S. vessels "Dorothea," "Nashville" and "Dubuque".

He conceived the idea of a great Naval Training Station for the United States on the Great Lakes, and finally secured this Naval Training Station through the assistance and public spirit of the Merchants and Commercial Clubs of Chicago, whom he interested in the project.

He has frequently been called the "Legislative Builder of the American Navy." Of the 1,200,000 tons of the present American Navy, a million has been authorized since Mr. Foss became a member of the Naval Committee, and over 70 per cent of the Navy was authorized and appropriated for while he was the chairman of the Naval Committee and had charge of the formulation of the Naval program and the Naval appropriation Bills, which he successfully carried through the House of Representatives. He is known and recognized today, the world over, as an authority on Naval affairs, and has many valuable reports and articles on the subject.

After such a useful and honorable service, the Republicans voters of the Tenth Congressional District owe it to themselves to renominate their faithful Representative in Congress, George Edmund Foss. We should send this man to Congress now so that his energies may be directed in building up and maintaining our Navy so that all the nations of the earth shall seek to be at peace with us.
