Overland Model 80

New Steam Body—Electric Starter—Electric Lights—Left Drive—Larger Tires—Demountable Rims—Larger Tonneau

This announces the latest Overland—Model 80.  
This is the handsomest Overland ever built. Up  
to date in every respect, artistically designed and  
finished. The powerful, larger, roomier and smooth  
running car establishes a new standard.

The price has not been advanced.  
This season we shall build 75,000 cars. This in-  
creased production again places us in the enviable  
and supreme position of being able to give still more  
value for still less money.

Here is the proof:  
Model 80 has a brand new full stream line body.  
Its full sweeping lines blend and harmonize perfect-  
ly with the balance of the symmetrical design. All  
visible lines are absolutely clean, unbroken and un-  
interrupted.

The new crowned moulded fenders, new rounded  
radiator, new hood slightly sloped, and flush U doors  
with disappearing hinges, contribute those additional  
touches of exterior grace and modishness which dis-  
tinguish those costly imported cars.

The new tonneau is much larger—both in width  
and in depth.

The new cushioned upholstery is also consider-  
ably deeper. The new long and improved under-  
slung springs supply unusual and easy riding qual-  
ities. This model is equipped with one of the highest  
priced electric starting and electric lighting systems.  
All switches, in a compact switch box, are conveni-  
ently located on the steering column. Thus in the driv-  
ing position, without stretching forward or bending  
down, you start the car, drive the car and control  
the electric horn and all head, side, tail and dash  
lights.

This model has the left hand drive and center  
control.

Two Passenger Roadster \$1050 Four Passenger Coupe \$1600 All U. S. prices F. O. B. Toledo, O.

DEERFIELD GARAGE, Agents, KNAK BROS. Props. Telephone Deerfield 225-J

The House provided with it is a Better, a more  
Convenient, Comfortable, Valuable House, yet

# Electric Light

IS CHEAP

Any income can afford it

No house is too small to enjoy its advantages

For instance, a five room house would be equipped with  
about 12 Lights. Arranged to secure the best results,  
two of these should be 60 watt, two 40 watt and the re-  
maining eight 25 watt—all twelve Tungsten lamps. These  
brilliant lights, all going at once would require two hours  
and a half to consume One K. W. H. of Electricity

*With our Electric Service in the house you can operate  
the Washing Machine, Vacuum Cleaner, Electric Iron,  
Fan, Toaster and many other appliances*

Its' Installation is Cheap

# We Wire Houses
